**Subject:** Groundwater Remediation Workplan Approval (1R-386) for Plains Junction 34 to Lea Station Release Site

**RE: Groundwater Remediation Work Plan Approval  
for the Plains Marketing, L.P.  
Junction 34 to Lea Station Release Site (1R-386)  
Unit Letter L, Section 21, T20S, R37E, NMPM, Lea County, New Mexico**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has reviewed the submitted proposed Groundwater Remediation Work Plan, dated August, 2009, for the above-referenced site. The OCD hereby conditionally approves the work plan:

Plains Marketing, L.P. shall increase the monthly groundwater recovery rate by at least 100% at each well where groundwater is currently being recovered (i.e., MW-1, MW-2, MW-3, MW-5, MW-7, and MW-10).

Please be advised that OCD approval of this work plan does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen

**Subject:** Groundwater Remediation Workplan for Plains Junction 34 to Lea Station Release Site (1R-386)

Ed,

You had requested some additional information regarding Section 3.0 of the Groundwater Remediation Workplan (August 2009) for the above referenced site. Nova Safety and Environmental personnel visit the site 2 times per month and during each site visit they attempt to pump and/or bail 5 – 10 gallons of groundwater from each of the wells listed below.

MW-1  
MW-2  
MW-3  
MW-5  
MW-7

MW-10

Please let me know if you have any questions or need more information.

Thank you,  
Jason Henry
