Mark E. Fesmire, P.E.
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Mr. Fesmire:

Pursuant to NMAC 19.15.15.13, Mewbourne Oil Company applies for approval of an unorthodox oil well location for the following well:

<u>Well:</u>	Limousine 15 CD Fed. Com. Well No. 1
<u>Surface location:</u>	990 feet FNL & 2010 feet FEL
<u>Entry Point in Producing Zone:</u>	990 feet FNL & 2310 feet FWL
<u>Bottom hole location:</u>	990 feet FNL & 330 feet FWL
<u>Well unit (project area):</u>	N½NW¼ of Section 15, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico

The well will be drilled to a depth sufficient to test the North Seven Rivers Glorieta-Yeso Pool. The pool is spaced on statewide rules, with 40 acre spacing, and wells to be located no closer than 330 feet to a quarter-quarter section line. An APD, with a Form C-102 included, is attached as **Exhibit A**. The directional drilling plan is attached as **Exhibit B**.

Although the well penetrates the top of the Glorieta-Yeso formation at an unorthodox location approximately 2595 feet from the east line of Section 15, in Unit B, the wellbore penetrates the productive zone at an orthodox location in Unit C. **Exhibits A and B**. The unorthodox surface location is due to topographic and engineering reasons: The well had to be located east of the well unit because an orthodox surface location is in South Seven Rivers. **Exhibit C**; and, placing it to the east of the well unit will increase the productive length of the wellbore.

Due to the well's directional plan, the entry point in the Glorieta-Yeso encroaches on the NE¼ of Section 15. That acreage is leased by Mewbourne. **Exhibit D**. Thus, notice of the application has not been given to any offset working interest owners.

Please contact me if you need any further information on this application.

Very truly yours,

Dear Jim

You have stated that Mewbourne is the lessee of the offsetting acreage. Since Mewbourne is the applicant, however, notice would be required to any other working interest owners in the offsetting acreage, if there are any.

Please advise if Mewbourne owns 100% of the working interest in the offsetting acreage, or if interest in that acreage are the same as in the proposed project area.

Sincerely

David K. Brooks
