Re: Revised standard location for
the State "J" Gas Com #5
Eumont Yates 7RQ (Pro Gas)
990' FSL and 990' FWL
Sec. 2, T-20S, R-36E
Lea County, New Mexico

Gentlemen:

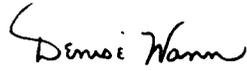

We are planning to drill the State J Gas Com. #5 in the Eumont Yates Seven Rivers Queen Gas Pool. The State J Gas Com #5 is to be located 990' FSL and 990' FWL, Sec. 2, T-20S, R-36E, Lea County, New Mexico. The proposed location is within an existing 440 acre proration unit, consisting of the S/2 of Sec. 2, the S/2 of NW/4 and the NE/4 of the NW/4 of Sec. 2.

This will be the second Eumont Well within the subject proration unit. The State J Gas Com #4 shown on the attached plat, currently produces 650 MCFPD.

Since the minimum gas allowable was increased by Order No. R-8170-G, December 1, 1990 to 600 MCFD for a 160 acre proration unit, the proposed well will enable Amerada Hess Corporation to economically increase gas production from the unit.

A well location and acreage dedication plat is attached as well as a map showing ownership of all leases offsetting the proration unit. Furthermore, a copy of this letter has been sent by certified mail to Arco, Conoco, Texaco, Mobil and Arrington, the five offset operators of offset proration units.

Sincerely,

A handwritten signature in cursive script that reads "Denise Wann".

RE: Objection to Application for Administrative Approval
Unorthodox Gas Well Location for Amerada Hess' proposed State J Gas Com #5
660' FSL, 1650' FWL, Section 2, T20S, R36E, Lea County, NM
Eumont (Yates/Seven Rivers/Queen) Prorated Gas Pool

Dear Mr. LeMay:

ARCO Oil and Gas Company, as an offset operator in the above referenced case, respectfully objects to Amerada Hess's Application for Administrative Approval for an Unorthodox Eumont gas well location for the State J Gas Com #5 well, proposed to be located 660' FSL, 1650' FWL, Section 2, T 20 S, R 36 E, in Lea County, New Mexico. Attached for your reference is Amerada Hess's Application dated October 5, 1992 asking for said approval, a copy of which was sent to ARCO as an offset operator.

Amerada Hess's Application is for an unorthodox well location for a new well which has not yet been drilled. While ARCO Oil and Gas Company often follows the practice of approving unorthodox well locations for recompletion projects where an operator is attempting to economically utilize an existing wellbore, we see no reason, nor has Amerada Hess stated, why a new drilling location should be an unorthodox location located nearer to ARCO Oil and Gas Company operated production than it could be if the well was drilled at an orthodox location. Our discussions with the NMOCD Hobbs Office indicate that this new well location would be orthodox if it was moved only 330' further north to be 990' from the south boundary line which adjoins ARCO acreage.

ARCO Oil and Gas Company has verbally discussed their concerns with Amerada Hess, and informed them that moving the well location only 330' would meet orthodox location requirements. Amerada Hess has informed ARCO that they will refile their application and amend the well location to make it orthodox, which will meet ARCO's concerns. Therefore, this objection is being filed with the NMOCD so that ARCO's disagreement with the originally proposed unorthodox location is made known, and if Amerada Hess completes the paperwork to amend the well location to an orthodox one, ARCO should have no further objection.

A copy of this letter has been sent to Amerada Hess via certified mail. If you need further information, please call me at (915) 688-5546.

Sincerely,

Kevin D. Renfro
Operations/Analytical Engineer
ARCO Oil and Gas Company

Unorthodox Gas Well Location
Eumont Yates 7RQ (Pro Gas)
660 FSL and 1650' FWL
Sec. 2, T-20S, R-36E
Lea County, New Mexico

Gentlemen:

Amerada Hess Corporation respectfully requests administrative approval of our application for unorthodox gas well location.

We are planning to drill the State J Gas Com. #5 in the Eumont Yates Seven Rivers Queen Gas Pool. The State J Gas Com #5 is to be located 660' FSL and 1650' FWL, Sec. 2, T-20S, R-36E, Lea County, New Mexico. The proposed location is within an existing 440 acre proration unit, consisting of the S/2 of Sec. 2, the S/2 of NW/4 and the NE/4 of the NW/4 of Sec. 2.

This will be the second Eumont Well within the subject proration unit. The State J Gas Com #4 shown on the attached plat, currently produces 650 MCFPD.

Since the minimum gas allowable was increased by Order No. R-8170-G, December 1, 1990 to 600 MCFD for a 160 acre proration unit, the proposed well will enable Amerada Hess Corporation to economically increase gas production from the unit.

A well location and acreage dedication plat is attached as well as a map showing ownership of all leases offsetting the proration unit for which the unorthodox location is sought, and also the wells completed thereon. Furthermore, a copy of this letter has been sent by certified mail to Arco, Conoco, Texaco, Mobil and Arrington, the five offset operators of offset proration units.

Sincerely,

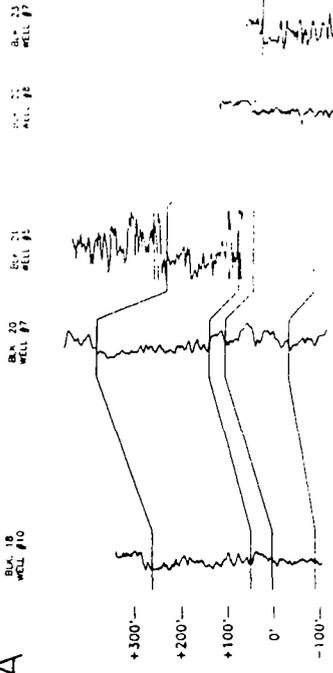

A handwritten signature in cursive script that reads "Denise Wann".

Eumont (Yates/Seven Rivers/Queen) Prorated Gas Pool

Dear Mr. LeMay:

ARCO Oil and Gas Company, as an offset operator in the above referenced case, respectfully objects to Amerada Hess's Application for Administrative Approval for an Unorthodox Eumont gas well location for the State J Gas Com #5 well, proposed to be located 660' FSL, 1650' FWL, Section 2, T 20 S, R 36 E, in Lea County, New Mexico. Attached for your reference is Amerada Hess's Application dated October 5, 1992 asking for said approval, a copy of which was sent to ARCO as an offset operator.

Amerada Hess's Application is for an unorthodox well location for a new well which has not yet been drilled. While ARCO Oil and Gas Company often follows the practice of approving unorthodox well locations for recompletion projects where an operator is attempting to economically utilize an existing wellbore, we see no reason, nor has Amerada Hess stated, why a new drilling location should be an unorthodox location located nearer to ARCO Oil and Gas Company operated production than it could be if the well was drilled at an orthodox location. Our discussions with the NMOCD Hobbs Office indicate that this new well location would be orthodox if it was moved only 330' further north to be 990' from the south boundary line which adjoins ARCO acreage.

ARCO Oil and Gas Company has verbally discussed their concerns with Amerada Hess, and informed them that moving the well location only 330' would meet orthodox location requirements. Amerada Hess has informed ARCO that they will refile their application and amend the well location to make it orthodox, which will meet ARCO's concerns. Therefore, this objection is being filed with the NMOCD so that ARCO's disagreement with the originally proposed unorthodox location is made known, and if Amerada Hess completes the paperwork to amend the well location to an orthodox one, ARCO should have no further objection.

A copy of this letter has been sent to Amerada Hess via certified mail. If you need further information, please call me at (915) 688-5546.

Sincerely,

Kevin D. Renfro
Operations/Analytical Engineer

Re: Application for Administrative
Unorthodox Gas Well Location
Eumont Yates 7RQ (Pro Gas)
660 FSL and 1650' FWL
Sec. 2, T-20S, R-36E
Lea County, New Mexico

Gentlemen:

Amerada Hess Corporation respectfully requests administrative approval of our application for unorthodox gas well location.

We are planning to drill the State J Gas Com. #5 in the Eumont Yates Seven Rivers Queen Gas Pool. The State J Gas Com #5 is to be located 660' FSL and 1650' FWL, Sec. 2, T-20S, R-36E, Lea County, New Mexico. The proposed location is within an existing 440 acre proration unit, consisting of the S/2 of Sec. 2, the S/2 of NW/4 and the NE/4 of the NW/4 of Sec. 2.

This will be the second Eumont Well within the subject proration unit. The State J Gas Com #4 shown on the attached plat, currently produces 650 MCFPD.

Since the minimum gas allowable was increased by Order No. R-8170-G, December 1, 1990 to 600 MCFD for a 160 acre proration unit, the proposed well will enable Amerada Hess Corporation to economically increase gas production from the unit.

A well location and acreage dedication plat is attached as well as a map showing ownership of all leases offsetting the proration unit for which the unorthodox location is sought, and also the wells completed thereon. Furthermore, a copy of this letter has been sent by certified mail to Arco, Conoco, Texaco, Mobil and Arrington, the five offset operators of offset proration units.

Sincerely,

A handwritten signature in cursive script that reads "Denise Wann". The signature is written in black ink and is positioned below the word "Sincerely,".

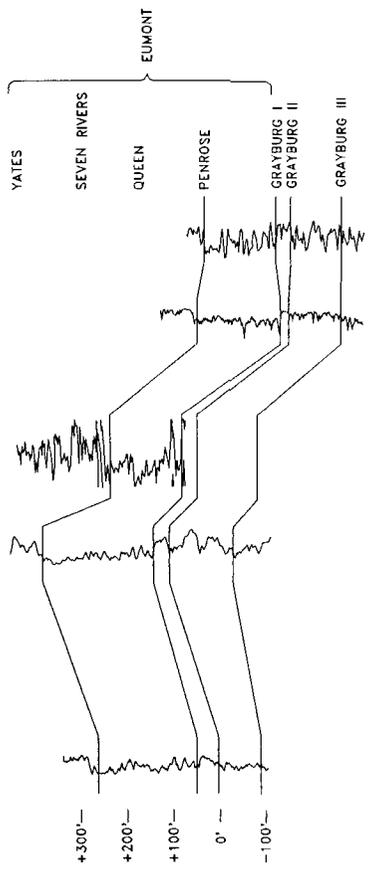

Denise Wann
Sr. Petroleum Engineer

Attention **Mr. D. C. Capps**
Gentlemen: ... **Administrative Order NSP-269**

Reference is made to your application for approval of a 440-acre non-standard gas proration unit in the Eumont Gas Pool consisting of the following acreage:

- Township 20 South, Range 36 East, NMPM
5/2, SW/4 NW/4 and E/2 NW/4 of Section 2 or alternate
- Township 20 South, Range 36 East, NMPM
W/2 SE/4 and NE/4 SW/4 of Section 2

It is understood that this unit is to be ascribed to your State "J" Well No. 3, located 1980 feet from the south and west lines and in the NW/4 SW/4 of Section 2, Township 20 South, Range 36 East, NMPM, Lea County, New Mexico.

By authority granted me under the provisions of Rule 5, Section (b)-6 of the Special Rules and Regulations for the Eumont Gas Pool, as set forth in Order R-520, you are hereby authorized to operate the above described acreage as a non-standard gas proration unit, with allowable to be assigned thereto in accordance with pool rules, based upon the unit size of 440 acres after successful communitization of the working interests and approval of the New Mexico State Land Office. Until communitization is effected, you are hereby authorized
