Describe Cause of Problem and Remedial Action Taken.\*

20 inch natural gas gathering line developed a 1 inch hole from corrosion. Line was excavated and leak repaired. Contaminated soil will be excavated and disposed of in an OCD approved landfill

Describe Area Affected and Cleanup Action Taken.\*

The area affected will be excavated and soil contamination disposed of. Area will be cleaned and sampled to insure compliance with OCD guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
