QUILMAN B. DAVIS
SECRETARY AND GENERAL ATTORNEY

December 16, 1957

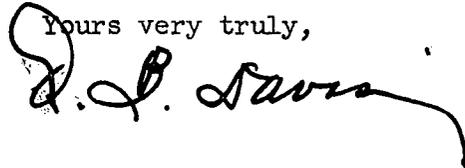

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

Pan American Petroleum Corporation has sent us a copy of their application to the Commission for a non-standard gas pro-
duction unit consisting of the NW $\frac{1}{4}$ of Section 2, Township 29
North, Range 10 West, on which is located their State Gas Unit
"T" No. 1 well.

Aztec Oil & Gas Company, as an offset operator, has no
objection to the proposed non-standard unit as requested in
Pan American's application.

Yours very truly,

QBD:NL

Subject: Application for a Non-Standard
Gas Proration Unit, State Gas
Unit "T" No. 1, Aztec Pictured
Cliffs FieldNew Mexico Oil Conservation Commission (3)
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

Pan American Petroleum Corporation respectfully requests administrative approval under provisions of Order R-614 dated April 20, 1955, of a non-standard gas proration unit in the Aztec Pictured Cliffs Gas Pool. This Unit is comprised by the NW/4 of Section 2, T-29-N, R-10-W and will be dedicated to our State Gas Unit "T" No. 1, located 1650' from the north line and 1750' from the west line of the above described section. In support of this application we state the following:

1. Due to a variation in legal sub-division of the United States Public Land Survey, the non-standard unit will consist of 164.38 acres.

2. The non-standard gas proration unit consists of contiguous quarter-quarter sections.

3. The non-standard gas proration unit lies wholly within a single governmental section.

4. The entire non-standard gas proration unit may reasonably be presumed to be productive of gas. State Gas Unit "T" No. 1 was completed December 6, 1975, as a shut-in gas well after an initial test of 258 MCF of gas per day.

5. By copy of this application, all offset operators as shown on the attached plat and mailing list have been notified by registered mail.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION

P. O. Box #71
Santa Fe, New Mexico

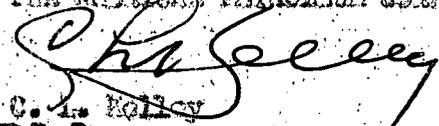

Gentlemen:

Pan American Petroleum Corporation respectfully requests administrative approval under provisions of Order 1-614 dated April 20, 1955, of a non-standard gas production unit in the Antec Pictured Cliffs Gas Pool. This Unit is comprised by the E/4 of Section 2, T-29-N, R-10-W and will be dedicated to our State Gas Unit #7 No. 1, located 1650' from the north line and 1750' from the west line of the above described section. In support of this application we state the following:

1. Due to a variation in legal sub-division of the United States Public Land Survey, the non-standard unit will consist of 164.30 acres.
2. The non-standard gas production unit consists of contiguous quarter-quarter sections.
3. The non-standard gas production unit lies wholly within a single governmental section.
4. The entire non-standard gas production unit may reasonably be presumed to be productive of gas. State Gas Unit #7 No. 1 was completed December 6, 1957, as a shut-in gas well after an initial test of 233 MCF of gas per day.
5. By copy of this application, all offset operators as shown on the attached plat and mailing list have been notified by registered mail.

Yours very truly,
