Gentlemen:

We have received a copy of your request for a non-standard gas proration unit for your "N" 5-6 and "N" 11-7 wells located in Section 6 and 7 respectively, Township 26N, Range 4W, Rio Arriba County, New Mexico. Southern Union as an offset operator has no objections of the formation of these non-standard units.

Yours very truly,

SOUTHERN UNION GAS COMPANY

Re: Request for Approval of Non-  
Standard Gas Proration Unit  
for "N" Well 5-6

Attention: Mr. A. L. Porter

Gentlemen:

In accordance with Order No. R-1193, Rule 2 (B), request is made for administrative approval of a non-standard gas proration unit for Northwest Production Corporation "N" Well 5-6, which is located in the NW/4 of the SW/4 of Section 6, Township 26 North, Range 4 West, Rio Arriba County, New Mexico.

The proposed non-standard unit for "N" Well 5-6 consists of 80 acres plus Lot 6 of 42.08 acres plus Lot 7 of 42.44 acres making a total of 164.52 acres. The unorthodox size of the proposed unit is caused by a variation in the legal subdivision of the United States Public Land Survey, and it lies within a single governmental section, all of which is subject to an oil and gas lease in favor of Northwest Production Corporation. It is reasonable to presume that all of the non-standard unit is productive of gas.

According to our records, and as indicated on the attached plat, Southern Union Gas Company, 1001 Burt Building, Dallas, Texas, owns the oil and gas lease on Sections 1 and 12, Township 26 North, Range 5 West, which offsets our Well "N" 5-6. Copy of this request for approval of a non-standard gas proration unit is being given to Southern Union Gas Company by registered mail.

Very truly yours,

NORTHWEST PRODUCTION CORPORATION
