Gentlemen:

Application of Magnolia Petroleum Company
for Administrative Approval for a Non-
Standard Proration Unit within Tapacito
Pictured Cliff Gas Pool for the Jicarilla
"C" No. 1 located in Section 7-T26N-R3W,
Rio Arriba County, New Mexico.

Attached is application for the non-standard gas proration unit within the Tapacito Pictured Cliff Gas Pool, for Magnolia's Jicarilla "C" No. 1 well. The well is located in the SW/4 of Section 7-26N-3W, Rio Arriba County, New Mexico. The application seeks to correct acreage attribution which is in error by being in non-standard governmental section. As required by Commission Order R-1193, we are furnishing you, as offset operator, with this application and ask that you notify the Commission of any objection you might have within 30 days of receipt.

Yours very truly,

MAGNOLIA PETROLEUM COMPANY

Attention: Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen:

Application of Magnolia Petroleum Company
for Administrative Approval for a Non-
Standard Proration Unit within Tapacito
Pictured Cliff Gas Pool for the Jicarilla
"C" No. 1 located in Section 7-T26N-R3W,
Rio Arriba County, New Mexico.

Magnolia Petroleum Company hereby applies for administrative approval for a non-standard gas proration unit for the Jicarilla "C" No. 1 within the Tapacito Pictured Cliff Gas Pool. The well location, legal description of the proration unit sought, and acreage therein are:

	LOCATION	UNIT DESCRIPTION	ACREAGE
Jicarilla "C" 1	971' FSL & 970' FWL Section 7- 26N-3W	SW/4 Section 7- 26N-3W	144.6

Requisite forms for well operation on file with the Commission reflect 160 acre attribution for this well. A subsequent investigation of Magnolia's records reveal that these forms, inadvertently filed, are in error by the amount set out above. The error results from well location within a non-standard governmental section.

Magnolia through this application seeks to correct acreage attribution to the Jicarilla "C" No. 1 by a request for a non-standard proration unit. Approval is requested under administrative

authority granted to the Secretary-Director under Rule 2(b) of Order No. R-1193, Special Rules and Regulations for the Tapacito Pictured Cliff Gas Pool.

Such facts do exist and provisions have been complied with to make Rule 2(b) applicable. These are:

- (1) The requested unorthodox unit consists of less than 160 acres due to a variation from the conventional size in the governmental section in which the well is located.
- (2) The requested non-standard unit consists of contiguous quarter-quarter sections.
- (3) The requested non-standard unit lies wholly within a governmental section.
- (4) The requested non-standard unit may reasonably be assumed to be productive of gas in its entirety.
- (5) All acreage within the requested non-standard unit is under a lease granted to Magnolia Petroleum Company.
- (6) In lieu of Section (b) subparagraph (5) of Rule 2(b), the applicant attaches and makes a part of this application a copy of the letter sent by registered mail to the only known offset operator, Southern Union Gas Company, Dallas, Texas. This letter includes a copy of this application and requests Southern Union to make any objections to this application known to the Commission within 30 days of receipt.
- (7) This application is intended to apply to the Pictured Cliff formation only.

Plats showing the acreage requested for attribution and location of the Jicarilla "C" No. 1 are attached and are meant to constitute a part of this application.

The applicant, Magnolia Petroleum Company, having determined that the unit acreage requested will conform to Rule 2(b) Order R-1193 and having complied with requirements of this rule, hereby

New Mexico Oil Conservation Commission 12 August 1958 3

respectfully requests administrative approval for a non-standard proration unit for the Jicarilla "C" No. 1.

Yours very truly,

MAGNOLIA PETROLEUM COMPANY
