Re: Administrative Order NWU-439;  
Southwest's SWP-48

Dear Dick:

I have just received a copy of the Administrative Order NWU-439 approving a nonstandard unit on the South One-Half of Section 18, Township 27 North, Range 12 West, N.M.P.M., San Juan County, New Mexico, which Order indicated that it pertained to 212.88 acres, as was indicated in your telegram to the USGS. As I discussed with you on the telephone after receiving the telegram, this should be 312.88 acres, since the Southeast Quarter of the section contains 160 acres, and the Southwest Quarter contains 152.88 acres. A formal written application will be submitted in the immediate future; however, in the meantime I would appreciate your correcting this acreage figure and sending a copy of your correction to the USGS and to me.

I apologize for this error; however, I thought my second telephone call to you that day had clarified the matter. We sincerely appreciate your prompt action in this matter, and regret any inconvenience which it may have caused you. Thanks again.

Very truly yours,

  
Gordon L. Llewellyn

Re: Southwest's SWP-48

Dear Dick:

Enclosed herewith are two (2) copies of Southwest Production Company's Application for Nonstandard Unit on the South One-Half ( $S\frac{1}{2}$ ) of Section 18, Township 27 North, Range 12 West, N.M.P.M., San Juan County, New Mexico. The Commission has previously furnished us and the United States Geological Survey in Roswell with a telegram and a formal approval, designating the unit as NWU-439 and referring to it as containing 212.88 acres. As previously indicated in my letter to you dated October 25, 1961, such Order should be amended to show that the unit contains 312.88 acres.

Very truly yours,

  
Gordon L. Llewellyn

Re: Application of Southwest Production Company  
for Exception to Rule 5(A) of Order No.  
R-1670-C for Administrative Approval of  
Nonstandard Gas Proration Unit in the  
Basin-Dakota Gas Pool

Dear Mr. Porter:

On behalf of Southwest Production Company, and pursuant to Rule 5(B) of Order No. R-1670-C, application is hereby made for an exception to Rule 5(A) of said Order allowing administrative approval of nonstandard gas proration unit comprising the South One-Half of Section 18, Township 27 North, Range 12 West, N.M.P.M., San Juan County, New Mexico. It is further requested that upon approval of such nonstandard gas proration unit, Southwest Production Company be given allowable in the ratio which the area of such unit bears to a standard proration unit of 320 acres; i.e., 312.88/320.

In support of this application, Southwest Production Company respectfully states and shows the following:

- 1/ Southwest's Collier Federal well is located on the Southwest Quarter of Section 18, Township 27 North, Range 12 West, N.M.P.M., San Juan County, New Mexico.
- 2/ The Southeast Quarter of said Section 18 contains 160 acres, and the Southwest Quarter of said Section 18 contains 152.88 acres; therefore, the unorthodox size of the South One-Half of said Section 18 is due to a variation in the regular subdivision of the United States Public Lands survey, and the South One-Half of said section contains a total of 312.88 acres.

Mr. A. L. Porter

-2-

October 25, 1961

Southwest Production Company, under the provisions of Rule 5(B) of Order No. R-1670-C, respectfully requests that the Secretary-Director of the Commission grant an exception to Rule 5(A) of said Order without notice or hearing, approving the nonstandard gas proration unit and allowable as hereinabove described.

Very truly yours,

DRISCOLL & LLEWELLYN
