Merrion Oil & Gas Corporation
Westland Park #1
30-045-34749 UL C, S18, T29N, R13W 1269 FNL & 1183 FWL
San Juan County, NM
Basin Fruitland Coal/ Kutz West Pictured Cliffs

Dear Mr. Brooks,

Merrion Oil & Gas hereby requests administrative approval for an unorthodox location for the above referenced well for the Kutz West Pictured Cliffs and Basin Fruitland Coal formation. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic Map
3. Ownership Map

The above mentioned well is being drilled within the city limits of Farmington, New Mexico. Merrion Oil & Gas was unable to find a surface site at an orthodox location that meets the city set-back rules and is acceptable to surface owners. The proposed unorthodox location is the best location that meets those guidelines.

Merrion Oil & Gas is the offset operator of the target formations located in the above mentioned section so no notification letters have been sent out.

If you should have any questions or concerns, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Philana Thompson". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

Basin Fruitland Coal/ Kutz West Pictured Cliffs

Dear Mr. Brooks,

Pursuant to 19.15.15.11 B. 3 NMAC Merrion Oil & Gas hereby requests administrative approval for a non-standard spacing unit for the above referenced well for the Kutz West Pictured Cliffs formation.

Section 18 is a truncated section, and the NW/4 is only 90 acres. Therefore, a NSP is needed to set up a spacing unit for the NW/4

Merrion Oil & Gas is the offset operator of the target formations located in the above mentioned section so no notification letters have been sent out.

If you should have any questions or concerns, please do not hesitate to contact me.

Subject: Westland Park No. 1; NSP application

Dear Ms. Thompson

In the referenced application, you state that no notice is required because Merrion is the operator of the entire section. In the case of the NSL application, this is correct in that no notice is required because the encroachment is internal within the unit.

In the case of the NSP application, since the proposed non-standard unit is an entire quarter section, there are no owners left out of the unit, and therefore no notice is required by the express provision of Rule 4.12.A(3). However, that rule also provides that notice shall be given to other persons to whom the Division requires notice. Where an application to create a non-standard unit significantly affects well density, as is the case here (1 well per 90 acres versus 1 well per 160 acres), it is our policy to require notice to offsetting operators of all adjoining units. Therefore notice needs to be sent for the NSP application to the operators of the adjoining units to the north, northeast, northwest and west, which are not in Section 18.

Thanks

David K. Brooks

Dear Mr. Brooks,

Pursuant to 19.15.15.11 B. 3 NMAC Merrion Oil & Gas hereby requests administrative approval for a non-standard spacing unit for the above referenced well for the Kutz West Pictured Cliffs formation.

Section 18 is a truncated section, and the NW/4 is only 90 acres. Therefore, a NSP is needed to set up a spacing unit for the NW/4

Merrion Oil & Gas has notified the offset operators.

If you should have any questions or concerns, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Philana Thompson". The signature is fluid and cursive, with the first name being the most prominent.

Pursuant to 19.15.15.11 B. 3 NMAC Merrion Oil & Gas is requesting administrative approval for a non-standard spacing unit for the above referenced well for the Kutz West Pictured Cliffs formation.

Section 18 is a truncated section, and the NW/4 is only 90 acres. Therefore, a NSP is needed to set up a spacing unit for the NW/4

Enclosed is a copy of the Application for Administrative Approval for a non standard spacing unit for the Westland Park #1 well that has been sent to the New Mexico Oil Conservation Division for the administrative approval. If your company should object, you must file your objection with the New Mexico Oil Conservation Division within 20 days, as required by the OCD rule 15.13.D (19.15.15.13D NMAC). If you have no objection to the proposed non-standard spacing unit, please so indicate by signing and returning one copy of the letter to me at the address shown on the bottom of this letter.

If you should have any questions or concerns, please do not hesitate to contact me. Your prompt attention to this matter will be very much appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Philana Thompson", is written over the typed name.

Subject: Westland Park No. 1; NSP application

Dear Ms. Thompson

In the referenced application, you state that no notice is required because Merrion is the operator of the entire section. In the case of the NSL application, this is correct in that no notice is required because the encroachment is internal within the unit.

In the case of the NSP application, since the proposed non-standard unit is an entire quarter section, there are no owners left out of the unit, and therefore no notice is required by the express provision of Rule 4.12.A(3). However, that rule also provides that notice shall be given to other persons to whom the Division requires notice. Where an application to create a non-standard unit significantly affects well density, as is the case here (1 well per 90 acres versus 1 well per 160 acres), it is our policy to require notice to offsetting operators of all adjoining units. Therefore notice needs to be sent for the NSP application to the operators of the adjoining units to the north, northeast, northwest and west, which are not in Section 18.

Thanks

David K. Brooks
