Mr. A. L. Porter Jr.
Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

Beta Development Co. is drilling their Shults-Federal #1 well in Section 1, T. 29 N., R. 11 W., located 1767' from the North line and 1610' from the West line.

We propose to dedicate the West 305.02 acres to the well. The shortage of acreage in the proration unit is due to a variation in the legal subdivision of the United States Public Land Survey.

Beta Development Co. hereby requests administrative approval for a non-standard proration unit covering the above mentioned West half of the section in accordance with the Basin Dakota Gas Pool Order # R-1670-C.

Yours very truly,

BETA DEVELOPMENT CO.

John T. Hampton
