NATURE OF RELEASE

Type of Release B/w & F/w	Volume of Release BBls. 165	Volume Recovered BBls. 165
Source of Release Tubing	Date and Hour of Occurrence 9-8-10 @ 1930	Date and Hour of Discovery 9-8-10 @ 2000
Was Immediate Notice Given? <input type="checkbox"/> x Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Jeff Lucking	
By Whom? Jon Ammons	Date and Hour 9-9-10 @ 0800	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input type="checkbox"/> x No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

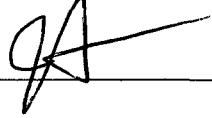

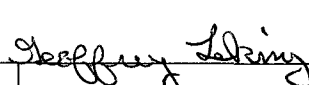

Describe Cause of Problem and Remedial Action Taken.*

Potential tubing problem causing well to leak water. Upon learning of this, 3 vacuum trucks dispatched to location to begin cleaning spill. Spill was controlled & cleanup was complete. Currently awaiting a pulling unit to investigate potential problems with tubing & regulatory agency approval.

Describe Area Affected and Cleanup Action Taken.*

The vast majority of the water was contained, a small amount of the water did leak onto dirt road. Both areas were cleaned up via vacuum trucks, dyke has been repaired.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
