Subject: Melrose St. 647-7-11 #89 p/l leak bore schedule

Good morning everyone

Sherry B. & Gary N. I have contacted the driller Mort Bates, and have confirmed that he is ready to bore. For the moment we have a site that is going to be done in the area of C29 in Lea County. We are only doing 3 bores at this site, but I'm expecting that we will have to go deep. I would like to go ahead and set up our bore schedule for Friday morning. Depending on how late we may have to work on the first site, I plan to have the rig on site and ready to go first thing Friday morning @ 0800. If we run into any unexpected problems I will give you'll a call and let you'll know of any delay or cancelations.

If you have any question or comments please don't hesitate to call or email me.

Thank you very much

Subject: Melrose St. 647-711 #89 P/L leak bore plans

Good morning everyone

I would like to give you an update as to our boring plans for the site. We had scheduled Atkins Eng. of Roswell to start our bores on or about 4-26-10. I later received a call from the driller Mort that he had been subpoenaed to court on 4-27-10 and would not be ready to start until 4-29-10 if all went well. I will be calling Mort on the evening of 4-27-10 and find out where we stand with our bore schedule, at this time notify all as to planning. Sherry & Gary I will do my best to give you as much advance notice, as we are scheduling a number of jobs to do at this time with 1 job having some really deep bores (possible).

If you have any questions or comments please don't hesitate to call or email me.

Thank you very much

Subject: State 647 AC 711 89 (30-015-02055) Remediation work plan requirement for release occurring 9/29/09
Attachments: State 647 AC 711 89 2010_1_21.docx

Gary/Linda,

Please find attached a letter sent via USPS to Melrose Operating Company—Mr. Michael J Corjay—requesting a remediation work proposal for the above mentioned release.

Should you have any questions or concerns regarding this matter, please contact me.

Please be advised that NMOCD acceptance and/or approval of documents or work plans does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance and/or approval of documents or work plans do not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Respectfully,
Sherry Bonham
NMOCD District II
