Remediation Plan (1R-459) Further Corrective Action Required**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received Rice Operating Company's (ROC) report and request to close the above-referenced site (dated September 22, 2010). The report indicates that further corrective action is required. Therefore, the OCD cannot approved the termination of the remediation plan at this time.

ROC must continue to remove chloride impacted groundwater from MW-1.

ROC must continue to monitor for TDS and chloride in MW-1, MW-2 and MW-3 on a quarterly basis.

If you have any questions regarding this matter, please contact me at 505-476-3489.
