Subject: RE: COG - Skelly Unit #967 - Work Plan Approval Request

The remediation proposal submitted for the produced fluid release (release date 12/31/09) on COG's Skelly Unit 967 (API 30-015-35871) is approved with the following stipulations/conditions:

- Notify OCD 48 hours prior to commencement of remedial activities.
- Notify OCD 48 hours prior to obtaining samples where the analyses will be submitted to OCD.
- In the event the proposed excavation depths are not achieved, contact OCD.
- Submit a Form C-141 marked Final Report along with a closure report upon satisfactory completion of project.
- Like approval by BLM as may be applicable.

COG is advised that this approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, this approval does not relieve the operator of responsibility for compliance with any other Federal, State, local laws and/or regulations.

If you have any questions or concerns, please contact me.
