Cindy,

After discussing this with the District Office, I am granting your extension request, with the condition that you are on-site working within the next week and are working to complete the project ASAP. Please coordinate with Randy and Mike and keep me posted as to your progress. Good luck.

Daniel

Subject: Re: 2009 APPLICATION FOR HEARING.docx

Daniel,

I spoke with Mike Bratcher earlier today regarding the information requested in Remediation Work Plans from Mark and Garner.

Mike provided me with the RP numbers for the sites in order that I would be able to locate all historical information and communication. Mike also stated that full delineation of the sites would be required prior to the preparation of a Remediation Work Plan.

Since I have just discovered this information and site delineation has not been conducted on the sites to date, Marks and Garner respectfully requests an extension on the submission of Remediation Work Plans until April 15, 2010.

This extension would provide adequate time to conduct full delineation at each of the eleven (11) Marks and Garner sites, receive and compile all analytical data, and prepare Remediation Work Plans that would be acceptable to the NMOCD.

If you have any questions or need additional information please let me know. I appreciate your help on this matter and look forward to working with you further.

Sincerely,
Cindy Crain

Cindy,

The easiest way to find out what was required in the work plan is to contact Mike Bratcher. He would have been the person to make the request. Once you get that information from him, you will have a better idea as to how much additional time, if any will be required.

Daniel

Daniel,

Thank you for sending a copy of the OCD's Application for Hearing, however, I do already have a copy of those pages.

What I am hoping to locate is the OCD's Letters of Violations referred to in part I. <u>Summary of Relief Sought by the Division</u>:
   Paragraph I states: ".... the OCD advised that it was required to submit a remediation work plan for OCD approval

                              by a specified deadline, and was given specific instructions regarding what that work plan

                              was to include."

I am hoping to locate those LOV's in order to know exactly what the OCD has requested the work plan to include.

Since I have not been able to locate this information to date, and the deadline on the extension for submission of those work plans is January 31, 2010, would it be a problem to extend the deadline on submission of the work plans until February 26, 2010?

Any help you can provide would be greatly appreciated!!

Thank you,
Cindy Crain

Cindy,

This was the OCD's application for hearing against Marks & Garner. It has the background for the case and what was required. Hope it helps but if not, give me a call. Thanks.
