NATURE OF RELEASE

Type of Release	Oil	Volume of Release	24bbls	Volume Recovered	23bbls
Source of Release	Oil Tank	Date and Hour of Occurrence	02/25/2010	Date and Hour of Discovery	02/25/2010
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required				
By Whom?	If YES, To Whom?				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No				
Date and Hour					
If YES, Volume Impacting the Watercourse.					
If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
An oil tank ran over due to a plugged equalizer line. The problem of the plugged equalizer line has been corrected.					
Describe Area Affected and Cleanup Action Taken.*					
All of the 24 bbls of oil that were initially released were contained inside the dike wall, which is lined with 40 mil plastic. A vacuum truck was called and recovered 23 bbls of oil. All saturated gravel has been removed and taken to appropriate disposal facility. Clean gravel has been added to the facility as necessary. The tank battery has been returned to its prior condition.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
