Reference: OXY (OGRID # 16696) Lakewood 15 – 001 \* 30-015-33574 \* I-15-19s-26e \* Eddy County, New Mexico

Cliff and Kelton,

The proposal for remediation of the produced fluids release that occurred on 10/17/2010, at or near the above referenced well site, is approved with the following conditions and/or stipulations:

- Notify the OCD District 2 Office 48 hours prior to commencement of remedial activities.
- In the event additional sampling is required, notify OCD 48 hours prior to obtaining samples.
- Submit a Form C-141 marked Final Report along with a closure report upon satisfactory completion of project.
- Project to be completed and documentation filed with OCD not later than 3/14/2011.

Be advised that OCD approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

**Subject:** Oxy MidCon-Lakewood "15" State #1

Mike,

This e-mail is to confirm our discussion yesterday, Jan. 11, 2010, concerning the remediation plan for the Oxy Lakewood "15" State #1 release. I have attached the information that we reviewed together.

As you recall, Oxy proposed a two foot excavation inside the battery firewall across the spill site and the areas just outside the firewall. The excavated soil will be disposed of at an OCD-approved facility and the site will be backfilled with clean soil.

Please respond back via e-mail with your concurrence and approval.

Thanks, Cliff
