ADMINISTRATIVE APPLICATION CHECKLIST

30-025-12485

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Fel
Lea

Application Acronyms:

- [NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]
[DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]
[PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]
[WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]
[SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]
[EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[Handwritten signature]

[1] TYPE OF APPLICATION - Check Those Which Apply for [A]

- [A] Location - Spacing Unit - Simultaneous Dedication
☐ NSL ☐ NSP ☐ SD

Check One Only for [B] or [C]

- [B] Commingling - Storage - Measurement
☐ DHC ☐ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

- [C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery
☐ WFX ☐ PMX ☒ SWD ☐ IPI ☐ EOR ☐ PPR

- [D] Other: Specify _____

[2] NOTIFICATION REQUIRED TO: - Check Those Which Apply, or Does Not Apply

- [A] ☐ Working, Royalty or Overriding Royalty Interest Owners
[B] ☒ Offset Operators, Leaseholders or Surface Owner
[C] ☒ Application is One Which Requires Published Legal Notice
[D] ☐ Notification and/or Concurrent Approval by BLM or SLO
U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office
[E] ☒ For all of the above, Proof of Notification or Publication is Attached, and/or,
[F] ☐ Waivers are Attached

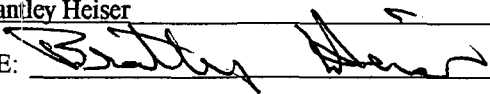

[3] SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED ABOVE.

[4] CERTIFICATION: I hereby certify that the information submitted with this application for administrative approval is accurate and complete to the best of my knowledge. I also understand that no action will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

APPLICATION FOR AUTHORIZATION TO INJECT

- I. PURPOSE: Secondary Recovery Pressure Maintenance X Disposal Storage
Application qualifies for administrative approval? X Yes No
- II. OPERATOR: Mas Operating Co.
ADDRESS P.O. Box 52167 Midland, TX 79710
CONTACT PARTY: Brantley Heiser PHONE: 432-618-0678
- III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.
Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project? Yes X No
If yes, give the Division order number authorizing the project: _____
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
 2. Whether the system is open or closed;
 3. Proposed average and maximum injection pressure;
 4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
 5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- *VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- *X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).
- *XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.
- NAME: Brantley Heiser TITLE: Manager
SIGNATURE:  DATE: 9/16/10
E-MAIL ADDRESS: bwheiser@sbcglobal.net
- * If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be resubmitted. Please show the date and circumstances of the earlier submittal: _____

ATTACHMENT TO APPLICATION C-108

W.W. Hamilton A #2
Unit I, Sect. 34, Tws. 16 S., Rng. 38 E.
API - 30-025-12485
Lea Co., NM

III. WELL DATA

- A.
 - 1) See injection well data sheets and attached schematics.
 - 2) See injection well data sheets and attached schematics.
 - 3) 2 7/8" plastic coated tubing.
 - 4) Baker Lock Set.
- B.
 - 1) Injection formation is the Lower Devonian.
 - 2) Injection interval 12450' to 12560'.
 - 3) Well was drilled as a Devonian producer, was later plugged back and tested In the Wolfcamp, the Wolfcamp tested dry. Will try and convert to SWD in Devonian.
 - 4) The next higher producing zone is the Wolfcamp at approximately 9150'.
The next lower producing zone is the Simpson at approximately 13,000'.

IV. NO.

V. MAP ATTACHED.

VI. LIST OF WELLS AND DATA ATTACHED.

- VII.** Mas proposes to re-complete in Lower Devonian. Cement squeeze Wolfcamp and Devonian perms. at 12360' - 12412'. Deepen well to 12560'. Test casing. Set 2 7/8" tubing and 5 1/2" packer at approximately 12350'.

- 1) Plan to inject approximately 5000 bpd of produced water from Mas' own operation in offset production, plus other waters from surrounding operators, as commercial SWD.
- 2) Open system.
- 3) Average injection pressure should be approximately 800# to 1200# or whatever limit OCD allows.
- 4) Analysis attached, only produced water.
- 5) Water from offset production from McKee, Devonian and Silurian, San Andres, 7 Rivers and Wolfcamp.

VIII. The proposed disposal formation is interbedded shale and limestone. The primary geologic formation is the Devonian from 12300' to 12560' .

The fresh water formation in the area is the Ogallala which ranges in thickness from 100' to 160' . Analysis of water well attached.

IX. ACID AS NEEDED.

X. LOGS RECENTLY SENT TO OCD HOBBS, AND WERE SCANNED INTO FILE.

XI. ATTACHED.

XII. I, Eddie W. Seay, have examined all available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zones and any underground source of drinking water pertaining to this well.

XIII. ATTACHED.

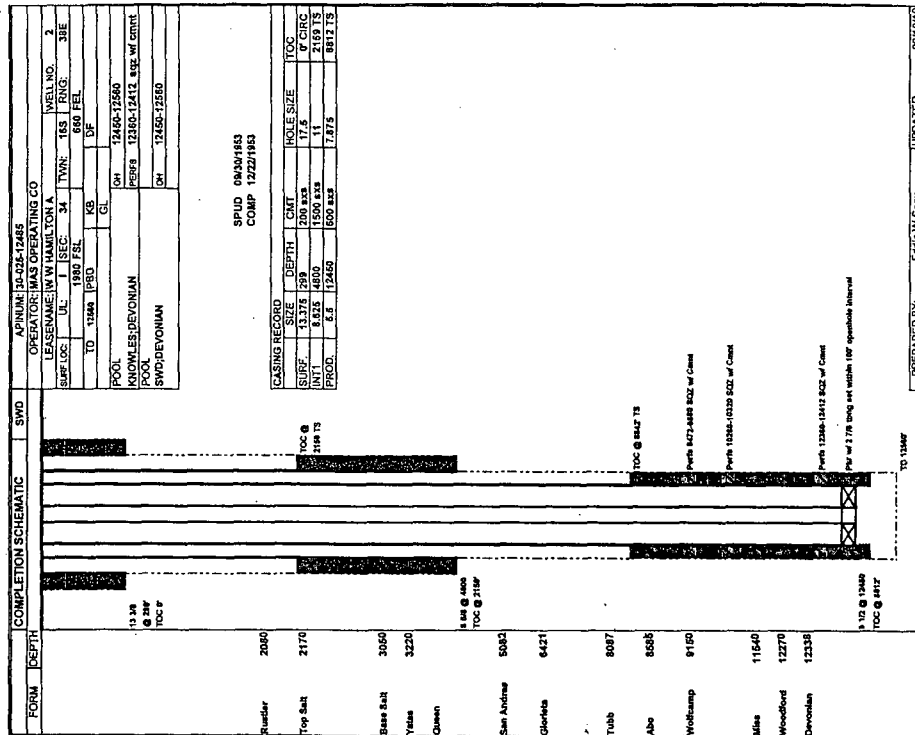

WELL NAME & NUMBER: 3. W. Hamilton A # 2 API 30.025.12485

WELLBORE SCHEMATIC

WELL CONSTRUCTION DATA
Surface Casing

Hole Size:	17 1/2	Cased with:	200	sq.	Casing Size:	138	ft ³
Top of Cement:	Surface	Method Determined:	Circ.				
<u>Intermediate Casing</u>							
Hole Size:	11	Cased with:	1500	sq.	Casing Size:	8 1/2	ft ³
Top of Cement:	2159	Method Determined:	TS				

Production Casing

Hole Size:	7 7/8	Cased with:	600	sq.	Casing Size:	5 1/2	ft ³
Top of Cement:	8812	Method Determined:	TS				
Total Depth:	12560						

Injection Interval

12450 feet to 12560

(Perforated or Open Hole, indicate which)

INJECTION WELL DATA SHEET

Tubing Size: 2 7/8 Lining Material: IPC

Type of Packer: Baker Lock Set

Packer Setting Depth: Approx 12260

Other Type of Tubing/Casing Seal (if applicable): NONE

Additional Data

1. Is this a new well drilled for injection? Yes X No

If no, for what purpose was the well originally drilled? As a Wolfcamp and

Devonian producer

2. Name of the Injection Formation: lower Devonian

3. Name of Field or Pool (if applicable): Knowles Devonian

4. Has the well ever been perforated in any other zone(s)? List all such perforated intervals and give plugging detail, i.e. sacks of cement or plug(s) used. Wolfcamp

from 9472-9580 and 10260-10320 perfs. will be cement 58.

5. Give the name and depths of any oil or gas zones underlying or overlying the proposed injection zone in this area:

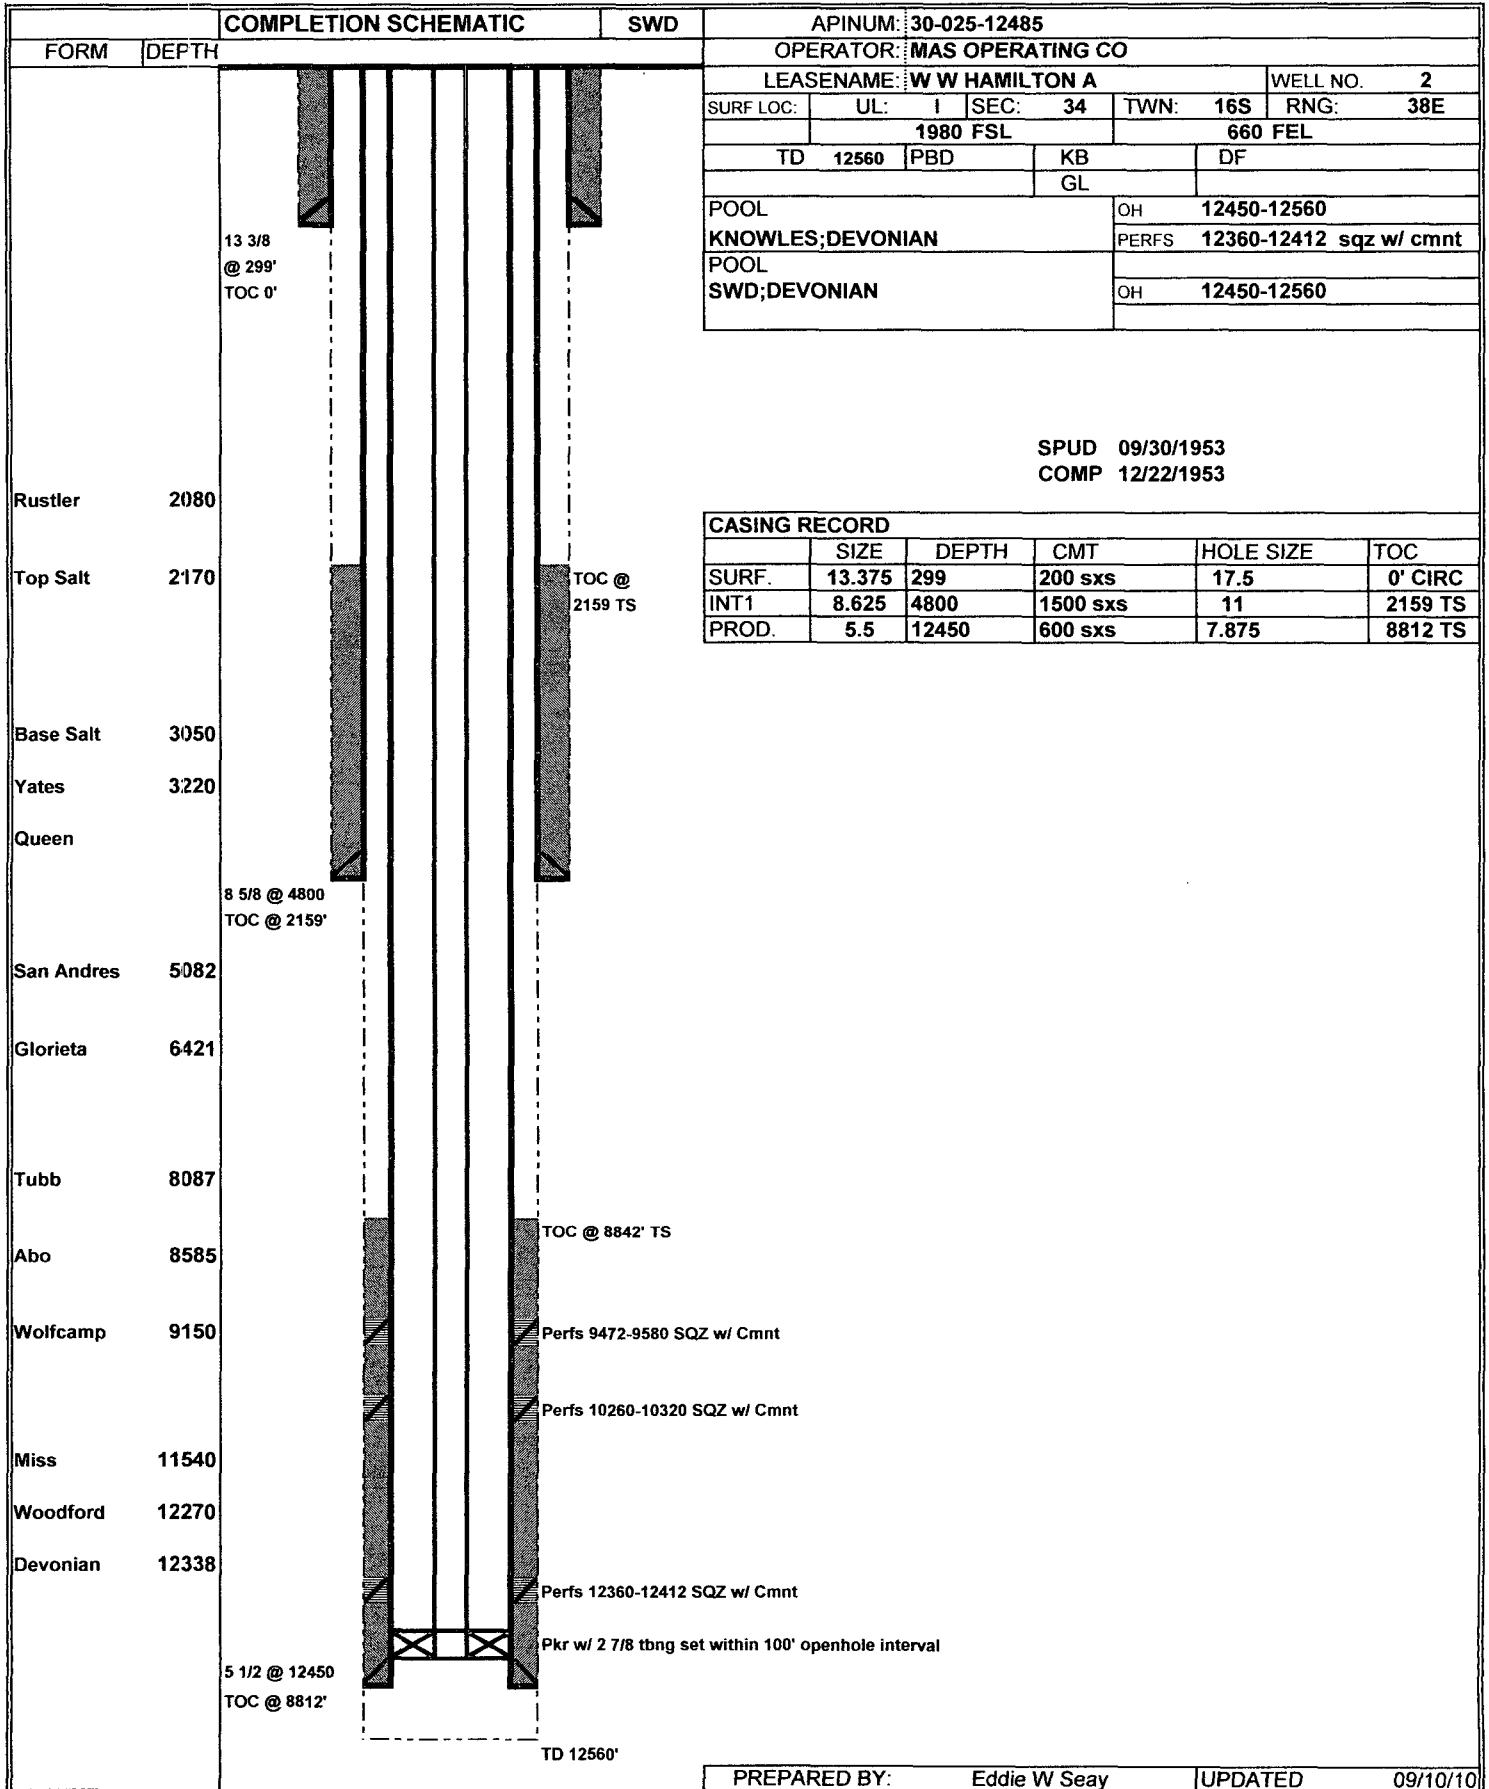

the Wolfcamp is above at 9150

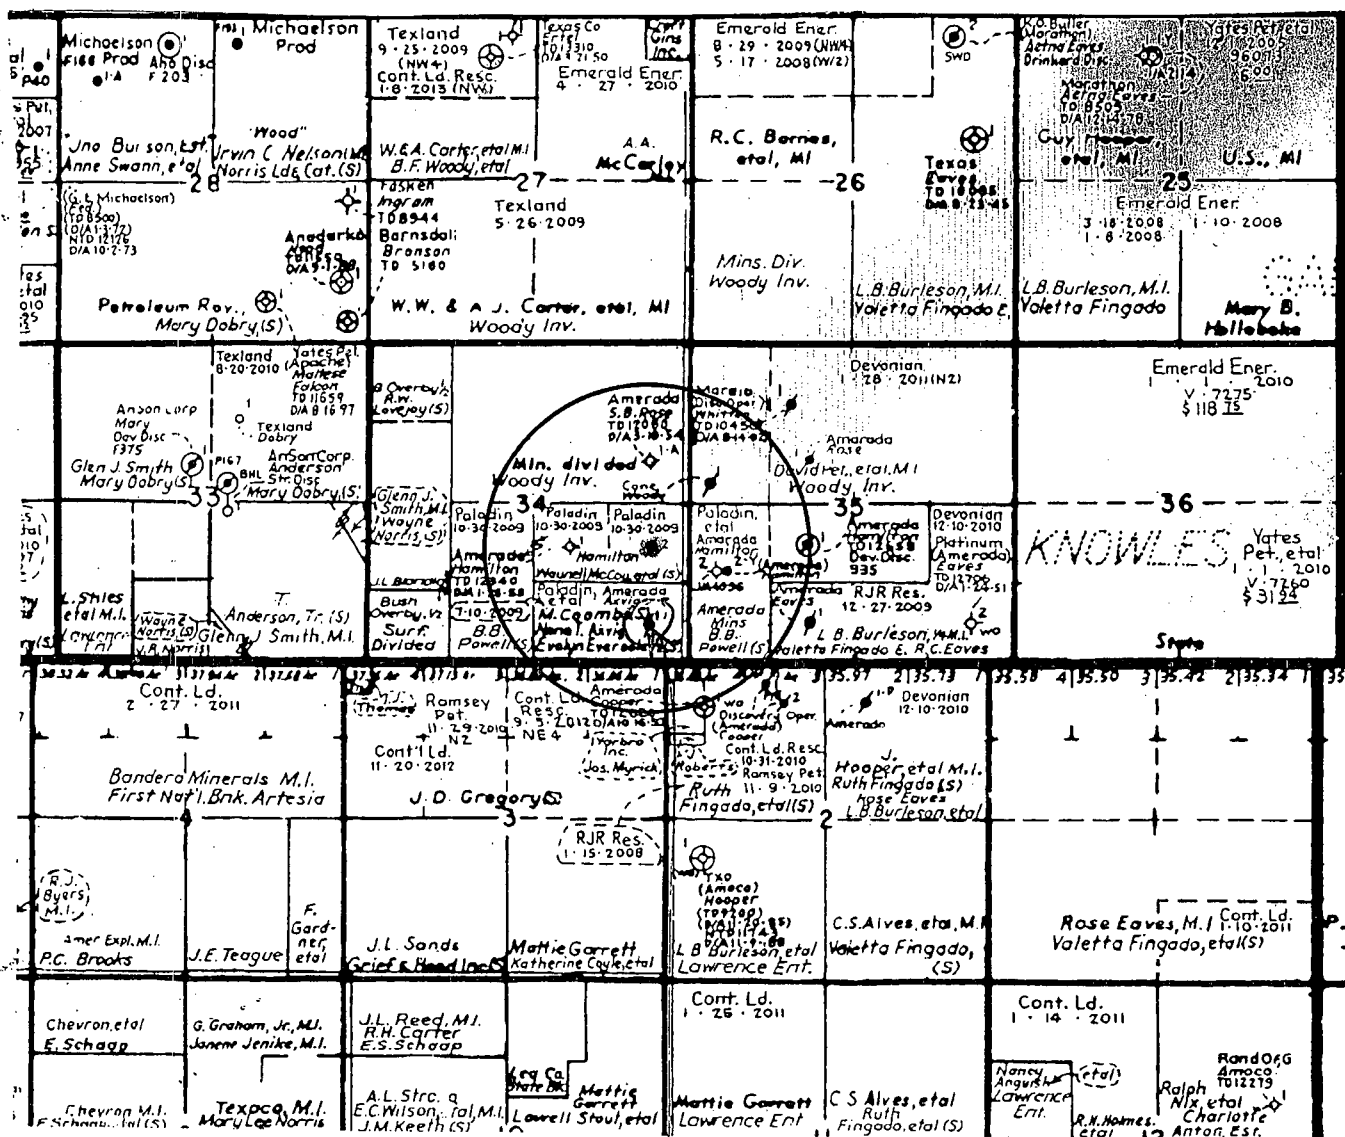

the Simpson is below at 13000

API #30-025-12485

Dear Sir:

In accordance with the Rules and Regulations of the Oil Conservation Division of the State of New Mexico, you are being provided a copy of the C-108, Application for Authorization to Inject in to the above captioned well.

Any questions about the permit can be directed to Eddie W. Seay, (575)392-2236. Any objections or request for hearing must be filed with the Oil Conservation Division within fifteen (15) days from the date received. The OCD address is 1220 S. Saint Francis Drive, Santa Fe, NM 87504, (505)476-3440.

Thank you,

A handwritten signature in black ink, appearing to read "Eddie W. Seay", with a long, sweeping underline.

LEGAL NOTICE

Pursuant to the rules and regulations of the Oil Conservation Division of the State of New Mexico, Mas Operating Co., Box 52167, Midland, Texas 79710, is filing a C-108, Application for Salt Water Disposal. The well being applied for is the W.W. Hamilton A #2, located in Unit I, Section 34, Township 16 S., Range 38 E., Lea Co. NM. The injection formation is the lower Devonian through perforations and open hole from 12300' to 12560' below surface. Expected maximum injection rate is 5000 bpd., and the expected maximum injection pressure is 1200 psi or what the OCD allows. Any questions about the application can be directed to Eddie W. Seay, (575)392-2236, or any objection or request for hearing must be directed to the Oil Conservation Division, (505)476-3440, 1220 South Saint Francis Drive, Santa Fe, NM 87504, within fifteen (15) days.

Subject: Disposal application from MAS Operating Company: W.W. Hamilton A #2 30-025-12485 Wolfcamp and Devonian Intervals

Cancelled

Hello Brantley:

Thank you for this application, very well done.

*See
SWD-169*

My suggestions and requests are as follows:

- a. Within the Area of Review there is a nearby, offsetting Devonian well to the East reporting production in the interval you are proposing for disposal. The practice here at the OCD is to consider this type of application a possible Pilot "Pressure Maintenance" or "Waterflood" project. These are only approved through an examiner hearing where all issues can be interactively discussed, such as ability of this reservoir to "waterflood" and correlative rights of (WI and RI) owners of any swept oil. I realize the Devonian is not normally a waterflood candidate, but this is the Division's practice. At the hearing, your reservoir engineer could present evidence and testimony for example that "this application is truly only a disposal well and would not affect the nearby producer", his engineering testimony should support that argument. Therefore if you want to pursue using the upper Devonian as a disposal interval, then please have your attorney contact Florene Davidson about setting up a "Case" and getting this matter on the docket.
- b. The upper Wolfcamp interval would not be eligible for disposal because of the low cement top (9516') in the Knowles SWD #2 30-025-07287. The lower Wolfcamp (or whatever the geologists call it) appears fine as far as offsetting cement tops. If this permit were issued, it would have a provision to squeeze off the upper Wolfcamp and pressure test it.
- c. This application states Disposal into this well will only be from MAS' "own" operations. Please identify which leases and wells will be supplying water to this well.
- d. There does not seem to be any electric logs on this well. Any permit may require at least a basic cased hole log to be run, with copy supplied to the Division.
- e. The Division would like the tracts of land to be identified within the ½ mile Area of Review and the owners of each tract listed.
- f. The lower Devonian open hole in this well was not shown as plugged off in your "post conversion" wellbore diagram but these depths were not listed as being in your application for disposal. If this is true, please send another wellbore diagram showing this plug over the open hole interval.
- g. Due to the problems using the Upper Wolfcamp and the Upper Devonian for disposal, please consider submitting a new application to use only the Lower Devonian, open hole interval as the disposal target. This interval has been abandoned in all surrounding wells many years ago as watered out and would possibly make a great disposal interval. This could be done administratively.
- h. During research on this well, I discovered that the Knowles SWD #2 (30-025-07287) was permitted for disposal (SWD-169 6/10/1975) into a lower San Andres formation interval from 6300 to 6400 feet. Subsequently this well has been perforated and used for disposal from approx 6100 feet to 6400 feet without evidence in our files

of any permit to allow this. The well is an active disposal well. Please either show this amended permit already exists or submit a C-108 form prior to October 1 asking to allow disposal into this entire expanded interval. We realize this is before MAS Operating Company owned this well, but as the operator, MAS is now responsible. If we don't receive another C-108 by October 1, we must alert the Legal Compliance group here in Santa Fe and there is a possibility the well may be shut in pending the requested permit.

All but the most simple C-108 submitted to this office spawns questions prior to approval.

Thanks again for this application,

Regards,

William V Jones, P.E.

Subject: Disposal application from MAS Operating Company: W.W. Hamilton A #2 30-025-12485 Devonian Intervals

Hello Brantley and Eddie:

We received your first application July 16 of this year and after evaluating, I sent the email request below.

We received the revised application Sept 14. In addition, I received a phone call from Eddie last week stating the new permit was revised as requested and asking about the status of the review.

After looking this over, it appears several items in the list of concerns have not been addressed. For example, the perforated pay interval of the Devonian (see g. below) is still being proposed for use as a water disposal target instead of only the open hole interval. In addition, I don't see any identification of separately owned "tracts" of land within the AOR.

The following are items that appear to still be of concern:

- a. Send a list of the defined tracts of land (legal locations) and who controls the minerals (has the Devonian leased, etc) in each tract. Many applicants for SWD retain the services of a Landman to supply this sort of information.
- b. Let me know if you are willing to squeeze the open Devonian perforations in this well and only use the open hole interval – or you have the option of having an examiner hearing to propose using this upper interval.
- c. Attach a list of MAS operated producing wells (and which pool they produce from) which will be sending water to this proposed disposal well. (see c. below).
- d. Are you willing to run a cased hole log on this well prior to commencing disposal (see d. below)?
- e. Only portions of the San Andres are permitted for disposal (see permit SWD-169) in the Knowles SWD #2, yet your well diagram shows that well is not plugged back to the San Andres - please explain whether this well diagram is incorrect or this well is in violation of SWD-169.
- f. Why have we not received an application for disposal into this Knowles SWD #2 (30-025-07287) by the requested October 1, 2010 deadline?

Regards,

Will Jones

RE: Mas Operating Co.
C-108 Application Revised
Hamilton A #2 (API 30-025-12485)

Mr. Jones:

I am in receipt of your note on deficiencies to the C-108 for the above listed well.

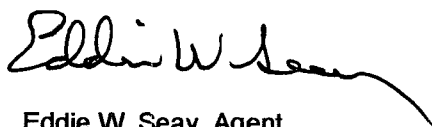

- 1) Mas will squeeze off perforations from 12360' to 12412' and only dispose into the lower Devonian, open hole section from 12450' to 12560', a new schematic being sent.
- 2) A list of mineral interests for the tracts of land is being sent, as was researched by Mas's consultant.
- 3) As new application requested, Mas is seeking to operate its SWD as a commercial facility plus its own water from the Cooper lease, Powell lease, Knowles and the Platinum leases which Mas plans to take over from the OCD.
- 4) Mas will run log if needed. There are logs which have been scanned into the file by OCD in Hobbs.
- 5) The Knowles SWD #2 (SWD-169)(API 30-025-07287). We sent in a request for an extension to work on this well until the Hamilton can be approved and put into operation. We have not heard anything concerning our request.

I have filed a C-103 with the OCD Hobbs to squeeze the perforations in the upper San Andres and complete the Knowles in the permitted area from 6300' to 6400'. A copy of the C-103 is being sent.

We apologize for the deficiencies in this application. Copies of the additions are in the mail.

Thanks for your patience in this matter.

Hello Mr. Eddie Seay:

We received your recent takeoff as passed on from Mr. Ramsey, thank you.

After comparing this to the mapped ½ mile circle, it appears some tracts within the ½ mile circle from this proposed well were not included.

Also, the tracts that were included in the Take-Off – I don't see where there is a list of who is leased and who is not leased.

Please identify owners of each of the following 12 Tracts and show that notice was provided:

1. NE/4 and E/2 NW/4 of Section 34
2. E/2 SW/4 of Section 34
3. N/2 SE/4 of Section 34
4. S/2 SE/4 of Section 34
5. W/2 NW/4 of Section 35
6. E/2 NW/4 of Section 35
7. W/2 SW/4 of Section 35
8. NE/4 SW/4 of Section 35
9. SE/4 SW/4 of Section 35
10. NW/4 NW/4 of Section 2

Dear Will Jones:

Mas Operating Company has notified all operators of leased minerals and all owners of un-leased minerals within one half mile radius of the WW Hamilton A #2 well located in Lea County, New Mexico per your requirements. Enclosed is a sample of the notification letter and a copy of the take-offs. Please let us know if anything else is needed to process the C-108.

Thank you,

Subject: SWD Notification Lists

Brantley:

Attached are the takeoffs for the SWD notification. If there is an Oil and Gas Lease currently on the mineral interest, you will not need to notify them because you own that lease. The offset operation is also you. Call with any questions.

Scott Ramsey

RE: W.W. Hamilton A #2
Unit 1, Sect. 34, T. 16 S., R. 38 E.
API #30-025-12485

Dear Sir or Madam:

In accordance with the Rules and Regulations of the Oil Conservation Division of the State of New Mexico, you are being notified of an Application for Authorization to Inject into the above captioned well, that is being filed by Mas Operating Company. The application can be reviewed online with the Oil Conservation Division.

Any questions about the permit can be directed to Eddie W. Seay, (575)392-2236. Any objections or request for hearing must be filed with the Oil Conservation Division within fifteen (15) days from the date received. The OCD address is 1220 S. Saint Francis Drive, Santa Fe, NM 87504, (505)476-3440.

Thank you,

Brantley Heiser
Mas Operating Company
P.O. Box 52167
Midland, TX 79710
(432)618-0678

LEGAL NOTICE

175
Pursuant to the rules and regulations of the Oil Conservation Division of the State of New Mexico, Mas Operating Company, Box 52167, Midland, Texas 79710, is filing a C-108, Application for Salt Water Disposal. The well being applied for is the W.W. Hamilton A #2, located in Unit I, Section 34, Township 16 S., Range 38 E., Lea Co. NM. The injection formation is the lower Devonian through ~~perforations and~~ open hole from 12300' to 12560' below surface. Expected maximum injection rate is 5000 bpd., and the expected maximum injection pressure is 1200 psi or what the OCD allows. Any questions about the application can be directed to Eddie W. Seay, (575)392-2236, or any objection or request for hearing must be directed to the Oil Conservation Division, (505)476-3440, 1220 South Saint Francis Drive, Santa Fe, NM 87504, within fifteen (15) days.

TITLE NOTES

- Note 1: H. M. Smith: In 1912, Ben L. Knowles conveyed a 3 1/3 acre tract in the NE/4NE/4 (Lot 1) of this Section 3 to H.M. Smith (Lea County Records, Deed Book B, page 523, dated: July 23, 1912). Neither H. M. Smith, nor his 3 1/3 acre interest, appears as of record beyond the initial warranty deed in 1912. A miscellaneous search for H. M. Smith revealed nothing. For the purpose of this report, H. M. Smith's 3 1/3 acre tract has been omitted from any calculations reflected in the NE/4NE/4 (Lot 1) of this report.
- Note 2: Delbert Dale Cooper: It appears that the mineral interests owned by Delbert Dale Cooper have been conveyed into the Dale Cooper Family Trust. However, there is no record of a conveyance of his interest in the NE/4 of this Section 3 into the trust. The Dale Cooper Family Trust is shown as the Lessor in the Oil & Gas Lease to J. O. Easley, Inc. (OGL, Book 517, page 481, dated: May 2, 1995). For the purpose of this report, this mineral interest is reflected as being held by Delbert Dale Cooper even though it is likely held by the Trust.
- Note 3: / The Estate of Eleanor M. Stephens: The mineral interest of Eleanor Margaret Stephens, Deceased, and preceded in death by her husband, Gwenn L. Stephens, has apparently been conveyed to her three children (Affidavit of Heirship, Book 1230, page 441, dated: June 9, 2003). However, there is no record of the conveyance nor the percentage of mineral interest conveyed to the three heirs listed below.

For the purpose of this report, this mineral interest is reflected as being held by the Estate of Eleanor M. Stephens.

Charles M. Stephens, Married, SSP
13820 S.W. Electric, Space 212
Beaverton, Oregon 97005

Patricia E. Osborne, SSP
201 West Oakview Avenue #37
Centralia, Washington 98351

Richard R. Stephens, Single
PO Box P
Winlock, Washington 98596

- Note 4: The Estate of J. Don Hudgens and the Roy G. Barton and Opal Barton Revocable Trust: Roy G. Barton, Sr. received a .00453125/304.31 or a 0.001480% mineral interest from J. Don Hudgens for Lot 2 (NW/4NE/4) and the S/2NE/4 of this Section 3, (Lea County Records, Mineral Deed Book 142, page 294, dated: August 9, 1951). However, this mineral deed assignment did not include Lot 1 (NE/4NE/4) in the legal description.

J. Don Hudgens does not appear again of record beyond the conveyance to Roy G. Barton, Sr.. It is the belief of this landman that J. Don Hudgens intended to convey all of his interest in the NE/4 of this Section 3 to Roy G. Barton, Sr. in the 1951 assignment. However, due to the fact that the Lot 1 (NE/4NE/4) description was not included in the assignment, the 0.001500% interest owned by J. Don Hudgens in Lot 1 is being reflected in this report as being held by the Estate of J. Don Hudgens.

Furthermore, Roy G. Barton, Sr., et ux, Opal, over conveys to the Roy G. Barton and Opal Barton Revocable Trust a 2.5453125/304.31 or 0.836420% mineral interest in the NE/4 of this Section 3, (Lea County Records, Mineral Deed Book 411, page 609, dated: February 19, 1982). According to this landmans calculations, The Roy G. Barton and Opal Barton Revocable Trust should own a 0.821530% mineral interest in Lot 1 (NE/4NE/4) and a 0.823080% mineral interest in Lot 2 (NW/4NE/4) and S/2NE/4 of this Section 3.

Note 5: Roy G. Barton, Jr.: Charles R. Turner over conveys a 1/32 or 3.125% mineral interest in the NE/4 of this Section 3 to Roy G. Barton, Jr., (Lea County Records, Mineral Deed Book 322, page 591, dated: December 17, 1970). Charles R. Turner previously assigned the entirety of his 1/32 mineral interest to F. E. Chartier (Lea County Records, Mineral Deed Book 162, page 105, dated: June 3, 1953). This interest is reflected as being held by Keith Pratt Daniels and Lynda Pratt Daniels, the descendants of F. E. Chartier.

Roy G. Barton, Jr. conveys half or 1.5625% of the over conveyed 3.125% mineral interest to his former wife Norma J. Barton, (Lea County Records, Mineral Deed Book 402, page 298, dated: January 1, 1983).

Both, Roy G. Barton, Jr. and Norma J. Barton are reflected in this report as adverse claimants.

Note 6: Estate of Winona C. Jones: Beyond the Trustees Mineral Deed assignment (Mineral Deed Book 837, page 327, dated: November 7, 1997) from the Gertrude S. Pearson Trust to Winona C. Jones, there is no record of Winona C. Jones leasing her interest in the NE/4 of this Section 3. However, there is an instrument of record (Oil & Gas Lease, Book 1036, page 584, circa: 2000) that suggests, but does not confirm, the possibility of her estate being placed into the Fredrick L. Jones and Winona C. Jones Revocable Trust, U/T/A, dated: August 30, 1989, PO Box 195, Burrton, Kansas, 67020. In addition, there are 10 instruments of record (effective February 2007) conveying SPECIFIC mineral interests from the Fredrick L. Jones and Winona C. Jones Revocable Trust to both the Candace L. Brazil Living Trust, dated: July 29, 2005 and the Chad and Angie Jones Family Revocable Trust, dated: September 25, 2005. However, none of these instruments specifically list an interest in the NE/4 of this Section 3.

Note 7: Estate of Joan Pearson Yager: Beyond the Trustees Mineral Deed assignment (Mineral Deed Book 837, page 327, dated: November 7, 1997) from the Gertrude S. Pearson Trust to Joan Pearson Yager, there is no record of Joan Pearson Yager leasing her interest in the NE/4 of this Section 3. However, there is an instrument of record (Oil & Gas Lease, Book 1466, page 761, circa: 2006) which provides the address used for Joan Pearson Yager in this report. Other than the Oil & Gas Lease in 2006, there is no record of Joan Pearson Yager in Lea County, NM.

Note 8: Gail Kinyon, Married, SSP: More than likely this interest is currently held by the Bill and Gail Kinyon Revocable Trust, however, it is not reflected in the Lea County Records.

Note 9: Strangers to title:

Sherry Leigh Barton: There is no record of Sherry Leigh Barton ever owning an interest in the NE/4 of this Section 3. However, she quitclaims all of her mineral interest to Roy G. Barton, Jr. (Lee County Records, Miscellaneous Book 879, page 217, dated: May 29, 1997)
