RE: **Application for Administrative Approval of Non-standard Location & Non-standard Proration Unit**

BIYA Operator's: Horseshoe Gallup Unit #300 (proposed new well)
Surface: 1101' FNL & 331' FWL (D and Lot #1). Sec. 28 T31N R16W, San Juan County, NM
Horseshoe Gallup Pool (32870)

Dear Mr. Brooks:

BIYA Operators Inc. hereby requests administrative approval for a non-standard location and a non-standard pro-ration unit for the above referenced well. The reason for these requests is due to the irregularity of the official survey. Attached for your reference are the following exhibits:

1. Proposed Well Location Plat, (NMOCD Form C-102)
2. List of Offset Operators and/or Leasehold Owners
3. Leasehold/Owner Map
4. Copy of the letter to the Offset Operators and/or Leasehold Owners
5. Well Status Map
6. Production Map
7. Topographic map

The rules state that an oil well should not be closer than 330 feet to the South and North quarter-quarter lines nor closer than 330 feet to the East and West quarter-quarter lines of an oil 40 acre pro-ration Unit. BIYA Operators plans to drill the referenced well from a surface location (in lot #1 of section 28) that is nearer the south and east quarter-quarter lines due to the irregularity of the official survey. Therefore, NM State rules indicate that this proposed well needs an order for a non-standard location.

BIYA Operators plans to dedicate all of Lot #1 in Section 28, which consists of 25.25 acres to the proposed oil well due to the irregularity of the official survey. Therefore, NM State rules indicate that this well needs an order for a non-standard pro-ration unit.

By certified mail, a copy of this application and request for administrative approval has been sent to all of the Horseshoe Gallup (32870) offset operators/owners on the attached list. Lime Rock Resources would like to request your Administrative Approval for the non-standard location and non-standard pro-ration unit based on the above information. Should you need any additional information please feel free to contact me at (505) 327-4573.

Best Regards,

Mike Pippin
Petroleum Engineer

RE: **Application for Administrative Approval of Non-standard Location & Non-standard Proration Unit**

BIYA Operator's: Horseshoe Gallup Unit #400 (proposed new well)
Surface: 1101' FNL & 331' FWL (D and Lot #1). Sec. 28 T31N R16W, San Juan County, NM
Horseshoe Gallup Pool (32870)

Dear Mr. Brooks:

As you requested, this revised application shows the well number change from #300 to #400. BIYA Operators Inc. hereby requests administrative approval for a non-standard location and a non-standard pro-ration unit for the above referenced well. The reason for these requests is due to the irregularity of the official survey. Attached for your reference are the following exhibits:

1. Proposed Well Location Plat, (NMOCD Form C-102)
2. List of Offset Operators and/or Leasehold Owners
3. Leasehold/Owner Map
4. Copy of the letter to the Offset Operators and/or Leasehold Owners
5. Well Status Map
6. Production Map
7. Topographic map

The rules state that an oil well should not be closer than 330 feet to the South and North quarter-quarter lines nor closer than 330 feet to the East and West quarter-quarter lines of an oil 40 acre pro-ration Unit. BIYA Operators plans to drill the referenced well from a surface location (in lot #1 of section 28) that is nearer the south and east quarter-quarter lines due to the irregularity of the official survey. Therefore, NM State rules indicate that this proposed well needs an order for a non-standard location.

BIYA Operators plans to dedicate all of Lot #1 in Section 28, which consists of 25.25 acres to the proposed oil well due to the irregularity of the official survey. Therefore, NM State rules indicate that this well needs an order for a non-standard pro-ration unit.

By certified mail, a copy of this application and request for administrative approval has been sent to all of the Horseshoe Gallup (32870) offset operators/owners on the attached list. Lime Rock Resources would like to request your Administrative Approval for the non-standard location and non-standard pro-ration unit based on the above information. Should you need any additional information please feel free to contact me at (505) 327-4573.

Best Regards,

Mike Pippin

Subject: BIYA Operators, Inc. - Horseshoe Gallup Unit #400; NSL/NSP Application

Dear Mr. Pippin

Please advise if BIYA Operators Inc. owns 100% of the working interest throughout the W/2 Section 28, and, if not, if working interest ownership is uniform throughout the half Section.

Sincerely

David K. Brooks
Legal Examiner
