Mike and Terry,

Depending on the weather, Tetra Tech will be onsite Wednesday morning (2-9-11) to assess the spill at the RJU South Tank Battery. Soil samples will be collected using a hand auger to delineate the spill area. Once the RJU assessment is completed, the Biscuit Hills SWD will be assessed the same day, if time permits. If not, the assessment will be performed on Thursday (2-10-11). We will call you on any schedule changes on the projects. Call me if you have any questions, thanks
