Lori Wrotenbery

Director

Oil Conservation Division

Apache Corporation
c/o James Bruce
P. O. Box 1056
Santa Fe, New Mexico 87504

Administrative Order NSL-5007 (SD)

Dear Mr. Bruce:

Reference is made to the following: (i) your application (*administrative application reference No. pMES0-06146825*) dated February 6, 2004 filed on behalf of the operator, Apache Corporation ("Apache"); (ii) your telephone conversation with Mr. Stogner late Monday afternoon, February 23, 2004; (iii) your e-mail response to Mr. Stogner on February 23, 2004; (iv) Ms. Cindy McGee's e-mail with attachments on Tuesday, February 24, 2004; (v) your e-mail correspondence with Mr. Stogner on Wednesday, February 25, 2004; (vi) your telephone conversation with Mr. Stogner on Thursday, February 26, 2004 concerning Occidental Permian Partnership's interest in this application; (vii) your e-mail and telefax responses Friday morning, February 27, 2004; and (ix) the Division's records in Santa Fe: all concerning Apache Corporation's request for an unorthodox "infill" oil well location within an existing standard 40-acre oil spacing and proration unit comprising the NW/4 NW/4 (Unit D) of Section 16, Township 21 South, Range 37 East, NMPM, Penrose Skelly (Grayburg) Pool (50350), Lea County, New Mexico.

The Division Director Finds That:

- (1) All of Section 16 is within the Penrose Skelly (Grayburg) Pool; an oil pool governed under Division Rule 104.B (1), which provides for 40-acre oil spacing and proration units and requires wells be located no closer than 330 feet to the outer boundary of such unit.
- (2) The NW/4 of Section 16 is a single state lease issued by the New Mexico State Land Office (State Lease No. B-01557-1) with common ownership in which Apache is the lessee of record and leasehold operator.
- (3) The standard 40-acre oil spacing and proration unit in the Penrose Skelly (Grayburg) Pool comprising the NW/4 NW/4 (Unit D) of Section 16 within this lease is currently dedicated to Apache's State "C" Tract 12 Well No. 8 (API No. 30-025-35515), located at a standard oil well location 660 feet from the North line and 810 feet from the West line of Section 16.
- (4) Apache now seeks to drill its State "C" Tract 12 Well No. 16 within this 40-acre Grayburg unit at an unorthodox infill oil well location 110 feet from the North line and 1310 feet from the West line of Section 16.

(5) The 958.25-acre area in Lea County, New Mexico comprising the SW/4 NE/4 and NW/4 SW/4 of Section 13, Township 20 South, Range 37 East, NMPM; Lot 1 of Section 30, Township 20 South, Range 38 East, NMPM; and Lots 3 and 6 of Section 4, the NE/4 SE/4 and S/2 SE/4 of Section 6; the E/2 SW/4 and SE/4 of Section 8; and the E/2 NW/4 and S/2 of Section 9, all in Township 21 South, Range 37 East, NMPM, is a single federal lease (Hawk "B-1") issued by the U. S. Bureau of Land Management (U. S. government lease No. NM-90161) with common ownership in which: (i) Apache, BP America Production Company ("BP"), and Chevron U.S.A., Inc. ("Chevron") each own undivided operating rights; and (ii) Apache is the leasehold operator. The two-affected standard 40-acre Grayburg oil spacing and proration units to the north in Section 9, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico, which the proposed State "C" Tract 12 Well No. 16 is encroaching are:

(a) the SW/4 SW/4 (Unit M) of Section 9, which is currently dedicated to Apache's: (i) existing Hawk "B-1" Well No. 19 (API No. 30-025-35796), located at a standard oil well location 660 feet from the South line and 425 feet from the West line of Section 9; and (ii) proposed Hawk "B-1" Well No. 40 (API No. 30-025-36533), to be located at an unorthodox infill oil well location [approved by Division Administrative Order NSL-4956 (SD), dated October 31, 2003, as corrected by order dated March 1, 2004) 1310 feet from the South line and 1280 feet from the West line of Section 9; and

(b) the SE/4 SW/4 (Unit N) of Section 9, which is currently dedicated to Apache's Hawk "B-1" Well No. 31 (API No. 30-025-35882), located at a standard oil well location 700 feet from the South line and 1850 feet from the West line of Section 9.

(6) This request is based on geologic and engineering reasons in that this location is approximately equidistance to other offsetting Penrose Skelly (Grayburg) oil producers within the immediate area.

(7) Apache, BP, Chevron, the New Mexico State Land Office, and the U. S. Bureau of Land Management have entered into a "cooperative lease/well agreement" providing for the allocation of proceeds of Penrose Skelly (Grayburg) oil production from Apache's proposed State "C" Tract 12 Well No. 16 in the following manner:

(a) 60.14% to be attributed to the subject State "C" Tract 12 lease (State lease No. B-01557-1); and

(b) 39.86% to be attributed to the offsetting Hawk "B-1" federal lease (U. S. government lease No. NM-90161).

(8) This allocation formula for the proceeds from Apache's proposed State "C" Tract 12 Well No. 16 serves to benefit all mineral interests within the Penrose Skelly (Grayburg) Pool to be impacted by this well's drainage.

(9) Approval of this application is in the best interest of conservation, will serve to prevent waste, protects correlative rights, exhibits sound engineering practices, and allows for the recovery of additional reserves that might not otherwise be produced.

It Is Therefore Ordered That:

(1) Pursuant to Division Rule 104.F (2), of the New Mexico Oil Conservation Division's ("Division") Rules and Regulations, the administrative application of Apache Corporation ("Apache") (*administrative application reference No. pMES0-406146825*) for its proposed State "C" Tract 12 Well No. 16 to be drilled at an unorthodox infill oil well location 110 feet from the North line and 1310 feet from the West line (Unit D) of Section 16, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico, and completed in the Penrose Skelly (Grayburg) Pool (50350), is hereby approved.

(2) For the Division's production reporting, prorationing, and well spacing purposes, Grayburg oil production from the above-described State "C" Tract 12 Well No. 16 is to be simultaneously dedicated, with Apache's existing State "C" Tract 12 Well No. 8 (API No. 30-025-35515), located at a standard oil well location 660 feet from the North line and 810 feet from the West line of Section 16, to the NW/4 NW/4 (Unit D) of Section 16, being a standard 40-acre oil spacing and proration unit in the Penrose Skelly (Grayburg) Pool.

(3) The distribution of proceeds from Penrose Skelly (Grayburg) oil production from Apache's proposed State "C" Tract 12 Well No. 16 are to be allocated in the following manner:

(a) 60.14% to be attributed to the subject State "C" Tract 12 lease (State lease No. B-01557-1) located in Section 16; and

(b) 39.86% to be attributed to the offsetting Hawk "B-1" federal lease (U. S. government lease No. NM-90161) located in Section 9, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico.
