NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 100bbls Water	Volume Recovered 90bbls Water
Source of Release Produced Water Line	Date and Hour of Occurrence 30Mar11 1100hrs	Date and Hour of Discovery 30Mar11 1100
Was Immediate Notice Given? X Yes No <input type="checkbox"/> Not Required	If YES, To Whom? Terry Gregston-BLM	Immediate Notification Required NMOCD for 7256663
By Whom? Dennis Potter	Date and Hour 30Mar11 1500hrs	
Was a Watercourse Reached? <input type="checkbox"/> Yes X No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*

The release was the result of a clamp failure on the Russell Battery Transfer Line. A vac truck was immediately called and on site to vac up all free standing liquid. A back hoe was used to build an earthen dike in order to reduce spreading of water. The affected area is approximately 20' x 300'. The area will be delineated and a work plan will be submitted to NMOCD and BLM for review and approval.

Describe Area Affected and Cleanup Action Taken.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
