Re: Expansion of Commingle Permit
Administrative Order CTB-127
Moore (Devonian) Pool
Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

In accordance with New Mexico Oil Conservation Commission Rule 309-B, Texaco Inc. respectfully requests administrative approval of an exception to Rule 309-A to permit commingling of hydrocarbon production from the Moore Devonian Pool from Texaco's New Mexico 'BN' State Lease into the central battery on Texaco's New Mexico 'BO' State Lease.

The working interest and royalty interest are all common between leases. Therefore, it is proposed that the production of the New Mexico 'BN' State Lease be routed to the existing central battery located on the New Mexico 'BO' State Lease and production be commingled. Production will be allocated to each lease on a periodic well test basis for which adequate testing facilities will be provided. A schematic diagram of the proposed commingling installation and plat of the subject leases are attached.

The State Land Office as Royalty Interest Owner and Texas New Mexico Pipe Line Company as purchaser of production are being furnished a copy of this application.

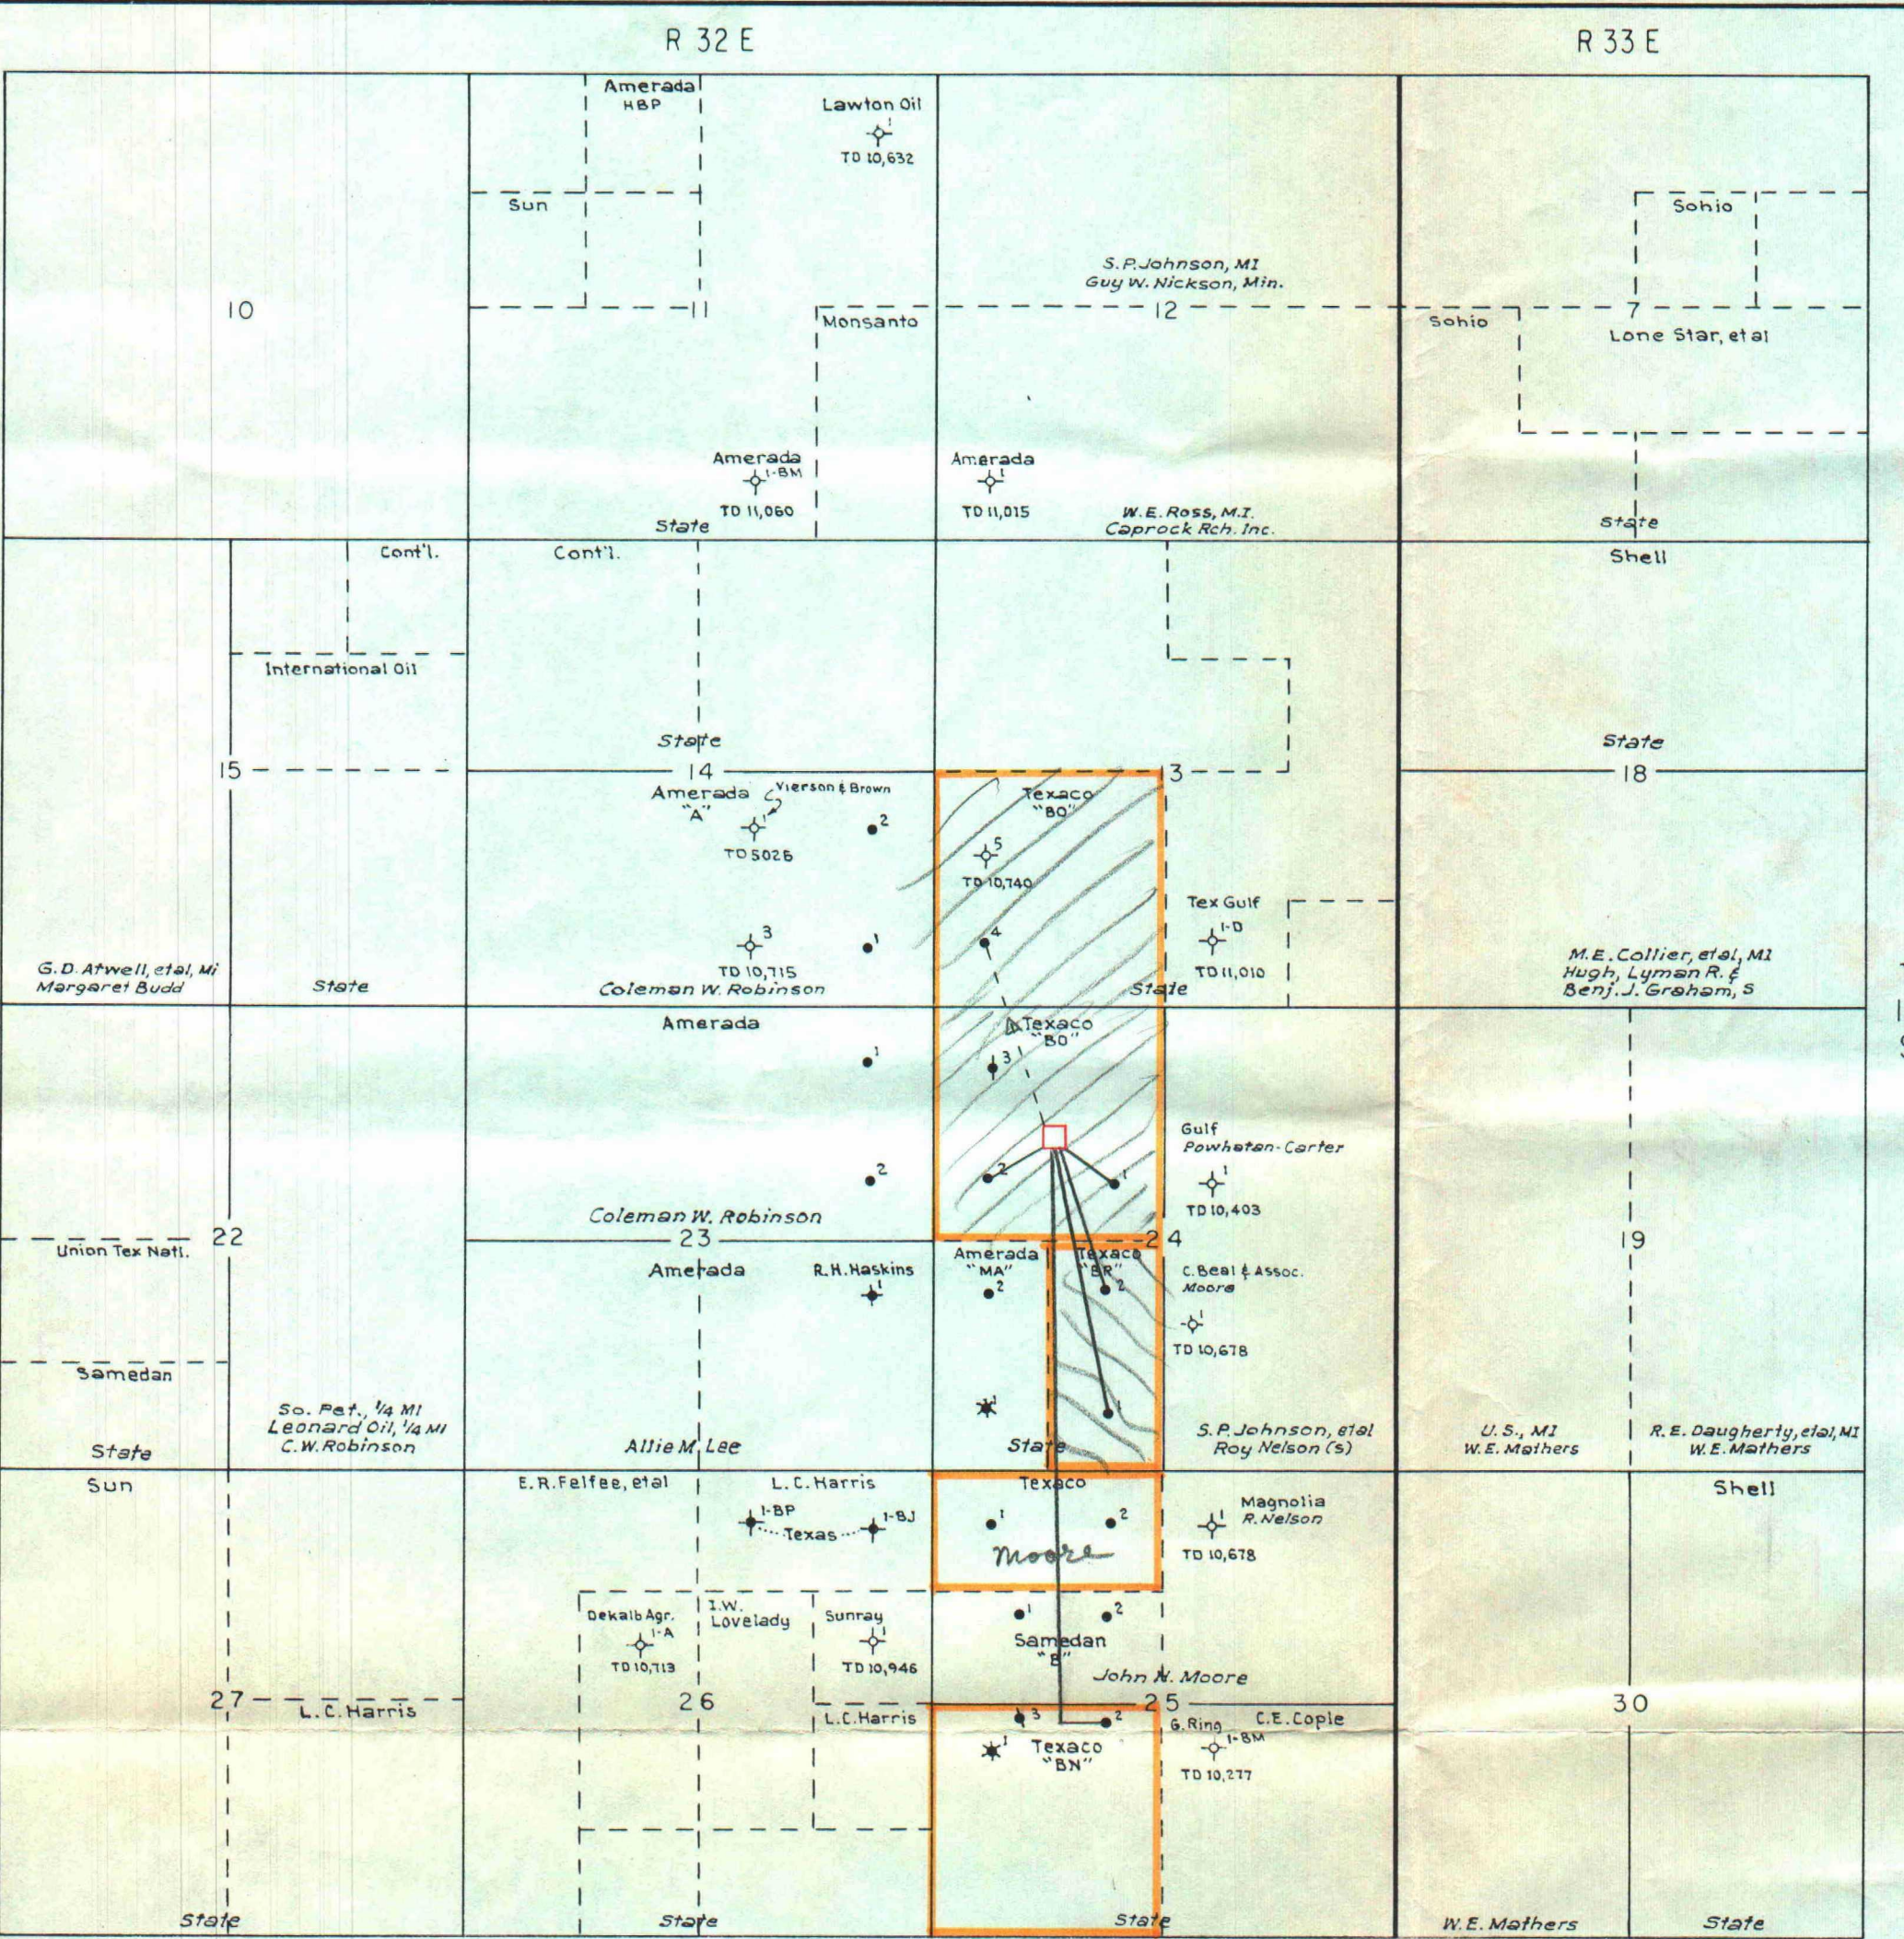

Your cooperation in this matter will be appreciated.

Yours very truly,

J. V. Gannon
