Gentlemen:

Shell Oil Company hereby makes application for administrative approval to commingle before marketing production from the Amco Federal (S 1/2, NW 1/4, and W 1/2 of NE 1/4, Section 33, T-8-S, R-30-E) and Amco Federal "A" (N 1/2 Section 4, T-9-S, R-30-E) Leases, Cato Field, Chaves County, New Mexico.

We propose to commingle the two leases without separately metering production from each lease as both leases are filed under State No. NM 3513 and royalty interests are common throughout. Allocation of production from each well and each lease will be based on monthly well tests.

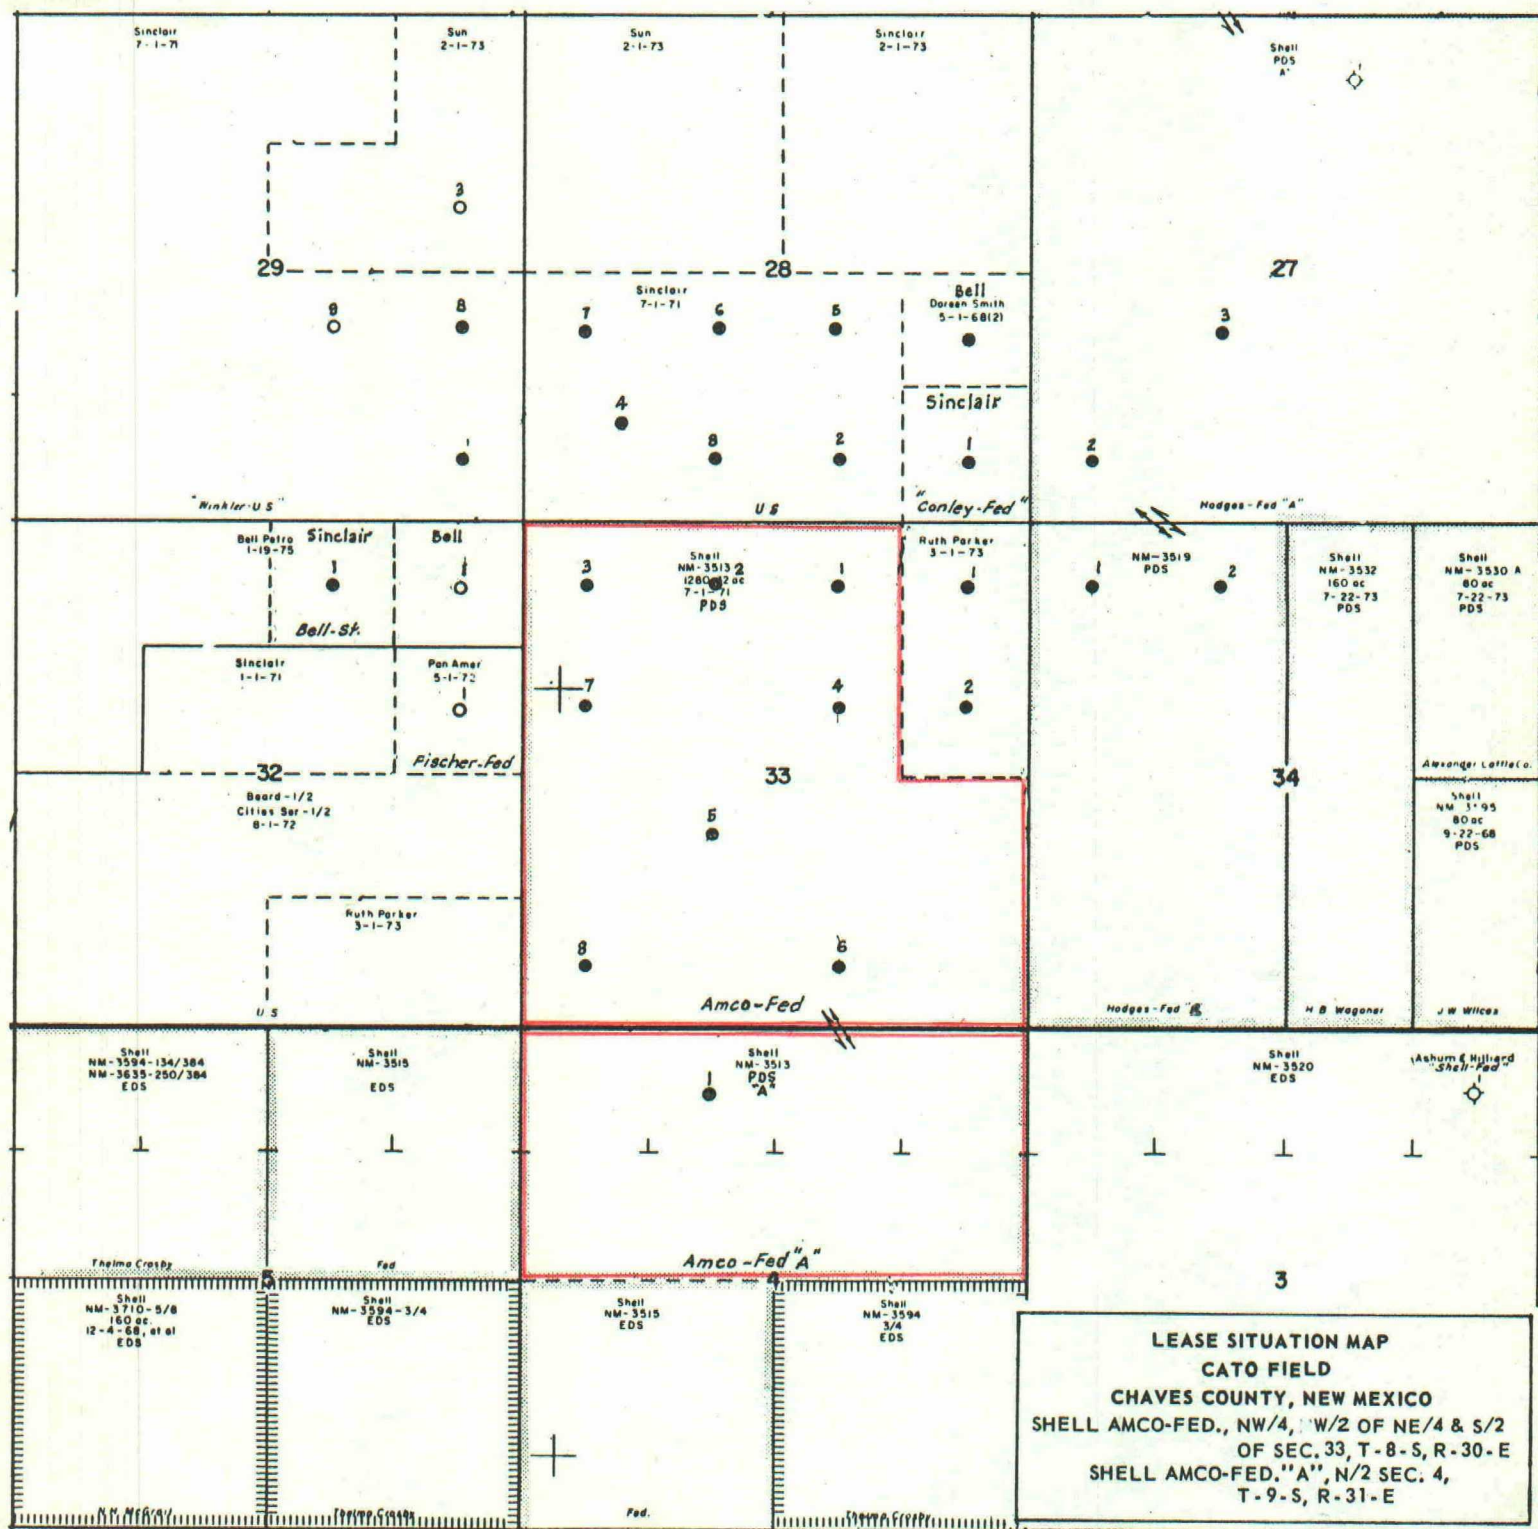

All wells produce from the same zone with similar gravities; therefore, no change in the commercial value of the production is anticipated.

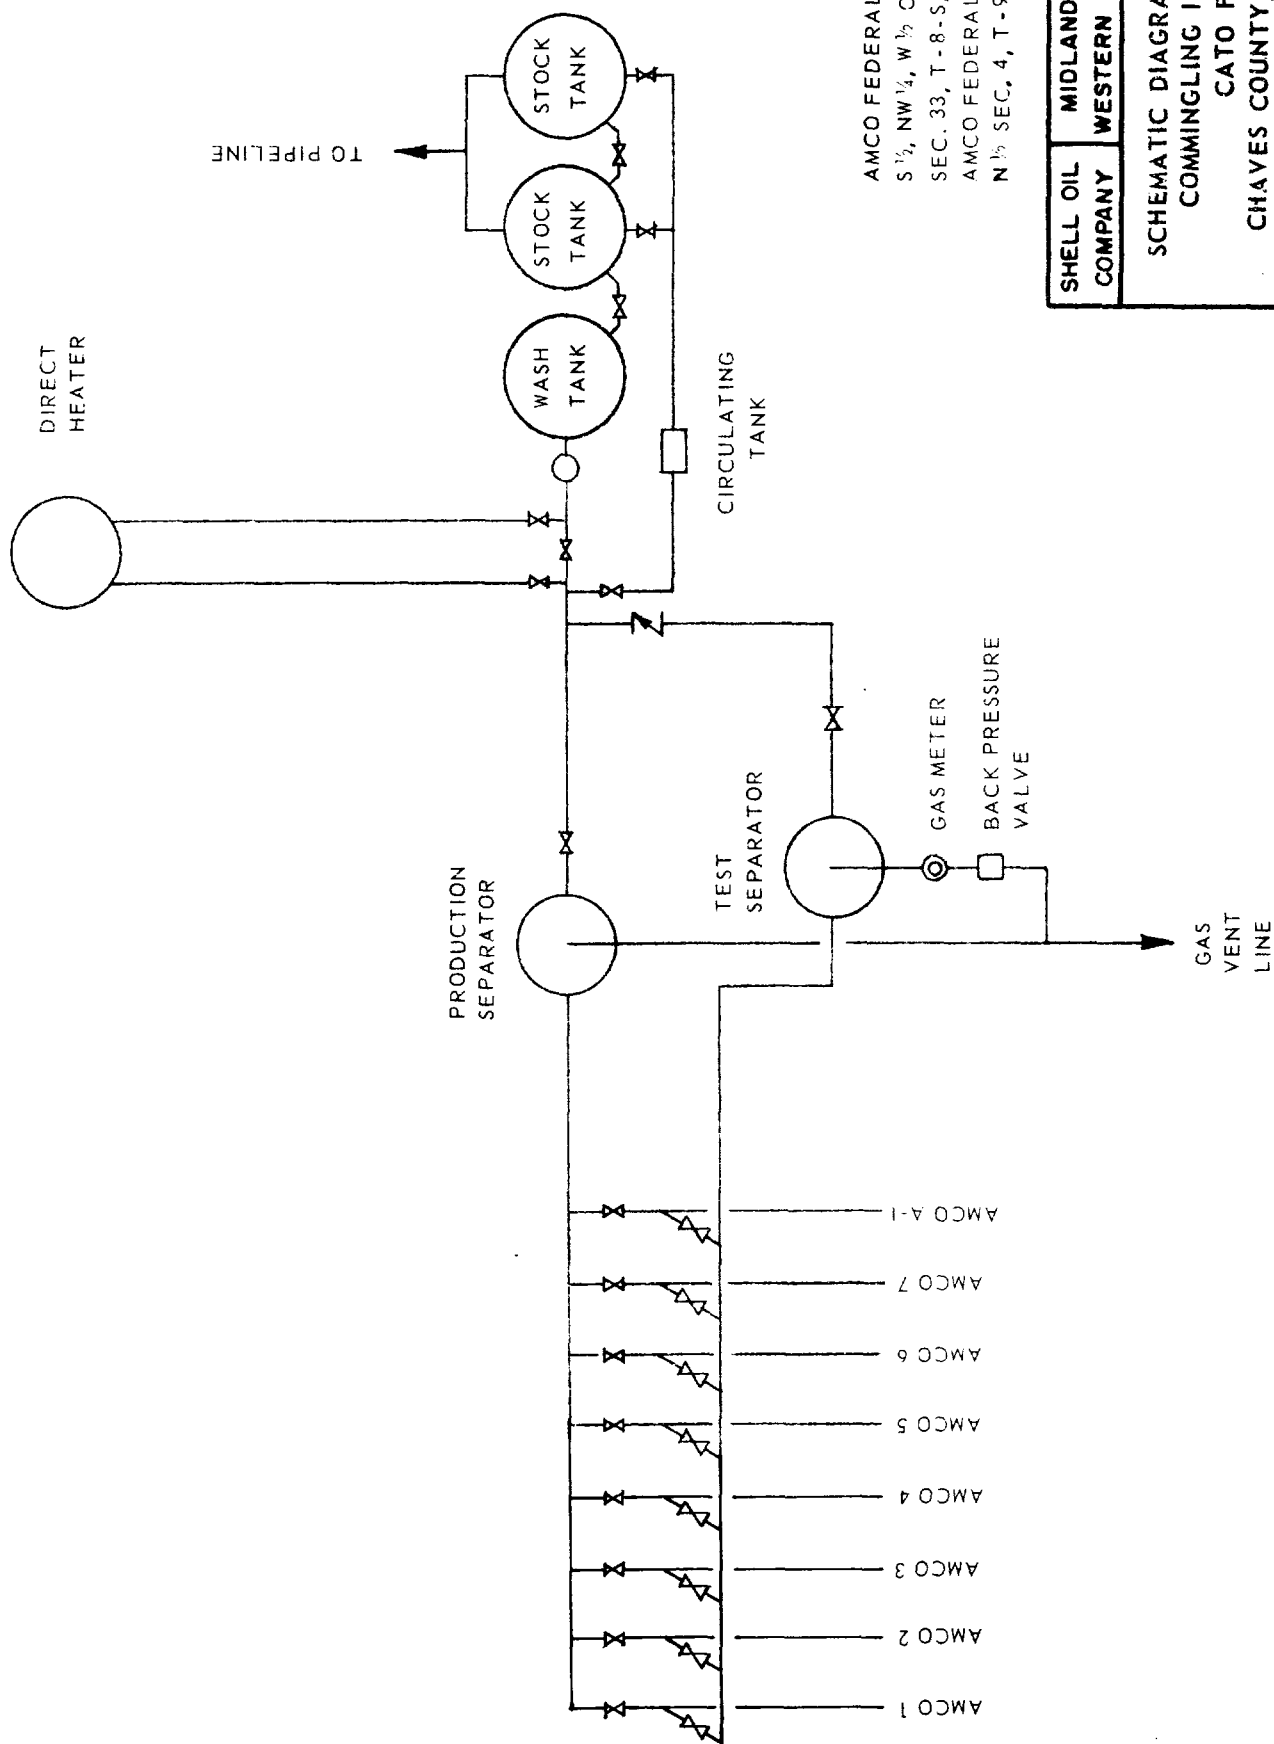

Attached for your consideration are a lease plat, schematic diagram of the proposed installation, and letters from all parties owning an interest in the leases and the purchaser of the production consenting to the proposed commingling. If additional information is required, please contact this office.

Yours very truly,

J. E. R. Sheeler
Division Production Manager

Attention: Mr. J. E. R. Sheeler

Gentlemen:

Your letter of November 20, 1967, requests approval to commingle production on Federal lease New Mexico 0155254-A.

Your letter advises that Shell has designated certain portions of lease New Mexico 0155254-A as the Amco Federal and Amco Federal "A" and you are requesting approval to commingle San Andres production from these portions of the lease. Although Shell has given the lease separate designations, it still remains one Federal lease and approval to commingle production from a single formation on one Federal lease is not required.

This office has no objection to commingling San Andres production from the portions of lease New Mexico 0155254-A Shell has designated as the Amco Federal and Amco Federal "A".

Sincerely yours,

CARL C. TRAYWICK
Acting Oil and Gas Supervisor
