Re: Shenandoah Flood No. 1
Request for Amendment of CTB 185
to Include S/2 NW/4 Sec. 9,
T17S-R33E, Lea County, New Mexico

Gentlemen:

This CTB-185 designation is in accordance with designation made in your letter of May 20, 1968. Attached hereto is up to date plat that shows all properties connected to this commingled battery as of this date, and which you will note also includes the 80 acres, S/2 NW/4 Sec. 9, T17S-R33E, which is the subject of this amendment request.

In connection with our request for commingling permit CTB-185 to include the S/2 NW/4 of Section 9, we wish to advise you as follows:

- (1) Attached hereto as Exhibit "A" is a plat which shows the location of said leases, well, flow lines and common tankage.
- (2) Attached hereto as Exhibit "B" is a list of the lease area by State Lease number and legal description, representing that all royalties therefrom are paid to the State of New Mexico, and there is no difference in ownership between said leases as to royalty or working interest thereunder, with the exception of an overriding royalty in the SW/4 NE/4 Section 8, T17S-R33E; and relative to this overriding royalty you have heretofore been furnished a telegram from the Trust Department of the Fort Worth National Bank of Fort Worth, Texas, waiving any objection to the commingling of production from such 40-acre tract.
- (3) All wells currently being produced by Shenandoah on these leases produce from a single common reservoir, being the Grayburg-San Andres formation.

May 27, 1969

- (4) The purpose for this request for commingling is to achieve a reduction in the cost of operation.
- (5) The State "A" producing wells 1, 5, and 7, along with the Aztec-State 1, 2, 3 and 4 and the State "C" 1-Y and the State D-2 wells are being produced into the one common tank battery that is located approximately 660' North of the State "A" 6-W injection well (See plat).
- (6) Shenandoah, at this date, has set 5½" O.D. casing in its State A-8 producing well located 990' FWL and 2310' FNL of Section 9, T17S-R33E. Enclosed herewith is a copy of Form C-102, Well location and Acreage Dedication Plat, covering this operation.

The royalty payable to the State of New Mexico will not be changed in any manner as a result of your approval of this application.

It is therefore requested that Commingling Permit CTB-185 be amended so as to include the 80 acres described in paragraph (6) above, so that Commingling Permit CTB-185 will now include the following acreage: As to State of New Mexico Lease E-881, W/2 SW/4 and SE/2 SW/4 Section 8; as to State of New Mexico Lease B-2516, N/2 NW/4 and NW/4 NE/4 Section 7; and S/2 NW/4, SW/4 NE/4 and N/2 NW/4 Section 8; and S/2 NW/4 Section 9; and as to State of New Mexico Lease K-5636, NE/4 NE/4 Section 7.

Very truly yours,

Request for Amendment of
CTB 185 to Include
S/2 NW/4, Sec. 9, T-17S, R-33E,
Lea County, New Mexico

Gentlemen:

The State Land Office has no objection to your request for commingling permit CTB-185 to include the S/2NW/4 of Section 9, Township 17 South, Range 33 East, Lea County, New Mexico, as per your request of May 27, 1969.

The Commissioner of Public Lands reserves the right to withdraw approval of this request if at any time, in his discretion, he deems this operation to be adverse to the best interests of the State of New Mexico.

Very truly yours,
