Dear Mr. Williams:

We are in receipt of your application of June 1, 1998, wherein you have requested our approval to surface commingle the production from the above wells.

We understand that production from the subject wells will be commingled and stored at the James Buchanan "33" State Well No. 1 tank battery facility located in Unit Letter I, Section 33-18S-28E.

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries as a result of your proposed operation, your request is hereby approved. Any deviation from the substance of your request will be sufficient grounds for rescinding our approval. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division.

Your \$30.00 filing fee has been received.

Please submit a copy of the Oil Conservation Division order approving this application.

Order No. CTB-467

Ms. Lori Wrotenbery:

On April 7, 1998, Marathon Oil Company requested the State of New Mexico Oil Conservation Division to grant administrative approval for exemption to Rule 309-A for the above mentioned leases. In the initial request, the Henry Courtman '4' lease was incorrectly shown in the E 1/2, Sec. 4, T-19-S, R-28-E. The correct location is the N 1/2, Sec. 4, T-19-S, R-28-E. Please accept this letter as an amendment notification.

Please find attached a corrected lease commingling plat. It should be noted that the initial working interest owner notifications correctly identified the Courtman lease in the N 1/2 of Section 4.

If you have any questions or comments, please advise.

Sincerely,
