Sec. 34, T21S-R37E  
Lea County, New Mexico**

Apache Corporation proposes to amend the referenced Surface Commingling Permit to include additional pools.

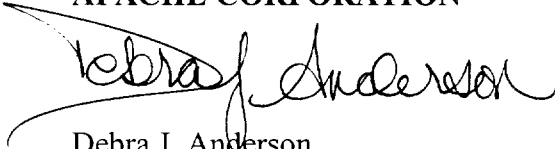

To support this request we have attached the following:

- 1) Tabulation of wells indicating the current producing pool, average daily production rates and API gravity of each pool.
- 2) The expected gravity is 38.2 and value of commingled production is 48 BOPD. The actual value of commingled production will not be less than the sum of production from each source. Allocation of production from each pool will be based on monthly well tests.
- 3) Production Facilities diagram
- 4) Plat of Owen 'B' lease
- 5) Copy of letter sent to Royalty Interest Owners and list of same.

If you have any questions regarding this application, please contact me at 713-296-6338. Thank you.
