Gentlemen:

Marathon Oil Company is proposing that the previously approved Off Lease Storage and Measurement agreement which included the North Indian Basin Unit, Stinking Draw, Bone Springs "12" Federal Com, and the MOC Federal leases be amended to include highlighted sections above. The leases to be added are the South ½ of Sec. 3 and all of Sec. 10 which are included in the North Indian Basin Unit and the north ½ of section 3 which has been designated the Comanche Federal Lease. Both Sections 3 and 10 are in T-21-S, R-23-E of Eddy County New Mexico. All production will be metered prior to commingling. Our records indicate you are an interest owner in one of the subject wells. Pursuant to NMOCD Rule 309-A, Marathon is required to seek your consent to the proposed commingling of production from the separate leases. Marathon believes that amending the original agreement to include to include Sec 3 & 10 will enhance the economic life of project and all leases involved.

Please indicate your approval by signing in the space below and returning one copy of this letter to this office in the enclosed envelope. The second copy is for your files. Your very prompt consideration of this matter will be greatly appreciated.

Sincerely,

A handwritten signature in cursive script, appearing to read 'R. A. Biernbaum', written over the printed name.
