**Ambassador Oil Corporation
P. O. Box 9338
Fort Worth, Texas**

Attention: Mr. Robert H. Vick

Administrative Order No. WFX-6-A

Gentlemen:

Reference is made to your application dated January 28, 1959, for administrative approval of expansion of the North Caprock Queen Unit No. 2 Water Flood Project.

Your requested expansion was for five wells, being your Wells Nos. 2-1, 19-2, 21-1, and 23-1, and Graridge Corporation's North Caprock Unit No. 1 Well No. 7-6, whereas the order of approval which was issued February 12, 1959, covered only four wells, the Graridge well being inadvertently omitted from the order.

Administrative Order No. WFX-6 is hereby amended to permit the conversion to water injection of the Graridge Corporation's North Caprock Queen Unit No. 1, Well No. 7-6, located in the SE/4 NW/4 of Section 7, Township 13 South, Range 32 East, NMPM.

In order to avoid a recurrence of this situation, and to follow a more orthodox manner of obtaining administrative approval for expansions to water flood projects, it is suggested that any future request for conversion to water injection be made by the operator of the well.

Very truly yours,

**A. L. PORTER, Jr.,
Secretary-Director**
