FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Anne Burnett Tandy dba Windfohr Oil Company, seeks authority to institute two waterflood projects in the Square Lake Pool, Eddy County, New Mexico, by the injection of water into the Grayburg and San Andres formations through 9 injection wells in Sections 1 and 11, Township 17 South, Range 30 East, NMPM.

(3) That the wells in the project areas are in an advanced state of depletion and should properly be classified as "stripper" wells.

(4) That the operator shall immediately notify the supervisor of the Commission's Artesia district office of the failure of the tubing or packer in any of said injection wells, the leakage of water or oil from around any producing well, or the leakage of water or oil from any plugged and abandoned well within the project area and shall take such timely steps as may be necessary or required to correct such failure or leakage.
