Re: Grayburg-Jackson Waterflood Project  
Keel/West Area - Phase 5  
Eddy County, NM

Dear Sir:

An "Application For Authorization To Inject", which was submitted to your office on 6/18/96 (Certified Mail Z737 086 481), contained several wells which have been previously approved for water injection.

Be advised that the H.E. West B #1 and #37 were approved under OCD Order No. WFX679 and the H.E. West B #15 and #18 are currently active water injectors.

Our sincere apologies for this oversight and any inconvenience it may have caused.

Sincerely,  
Devon Energy Corporation

Charles H. Carleton  
Senior Engineering Technician
