Attn: Mr. Matt Eagleston

**RE: Injection Pressure Increase,
Maljamar Grayburg Unit (MGBU),
Lea County, New Mexico**

Reference is made to your request dated April 12, 2000 to increase the surface injection pressure on two wells in the above referenced waterflood project. This request is based on step rate tests conducted on March 13, 2000 and March 26, 2000. The results of the tests have been reviewed by my staff and we feel an increase in injection pressure on these wells is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following wells:

<i>Recently Tested Well Name and Number</i>	<i>Adjacent Well Name and Number</i>	<i>ULSTR</i>	<i>Authorized Pressure</i>
MGBU Well No. 8		H-3-17S-32E	2625 PSIG
	MGBU Well No. 5	K-3-17S-32E	2625 PSIG
MGBU Well No. 154		L-4-17S-32E	3025 PSIG
	MGBU Well No. 15	E-4-17S-32E	3025 PSIG
	MGBU Well No. 21	K-4-17S-32E	3025 PSIG
All wells located in Lea County, New Mexico.			

The Division Director may rescind these injection pressure increases if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

Lori Wrotenbery
Director
