Re: New Mexico H State Well
No. 13-P, Section 16, T8S,
R30E *Cato San Andres*
~~Pressure Maintenance~~ Pressure Maintenance Project
Order No. R-3551 ✓

Gentlemen:

Cato - San Andres Pao
Correction from Joe Martin by phone

As monthly project reports indicate that the subject well in the referenced project is the only remaining active injection well therein and as the well appears to be utilized for the disposal of produced waters only, we would propose to administratively reclassify the same as a salt water disposal well.

This change would require that you submit monthly injection volumes on Form C-120-A rather than the more extensive pressure maintenance report now being submitted.

Please signify your approval of this change by signing and returning the extra copy of this letter enclosed. No other action on your part will be required.

Very truly yours,

R. L. STAMETS
