RE: Authorization to Inject North Vacuum Abo Unit No. 95 Section 26, T17S, R34E Lea County, New Mexico

Dear Ms. Defenbaugh:

In order to process the salt water disposal application for the above referenced well, some additional information will be required.

According to your tabulation of wells within the area of review, there are five wells which according to depth, penetrate the proposed Devonian injection zone. These wells are listed below:

Mobil N.V.A.U. #96	26-17S-34E	12,390'
Conoco Inc. #7	35-17S-34E	12,413'
Getty Oil Co. #6	36-17S-34E	12,110
Marathon Oil Co. #5	25-17S-34E	12,195'
Marathon Oil Co. #7	25-17S-34E	12,125'

We would like some information regarding the present detailed construction of these wells including all casing and cementing data, perforation data, completion data, etc. This information may be reported in the form of a schematic drawing.

In regards to the Proof of Notification section on Division Form C-108, we require proof that the operators within the one half mile radius of the well are notified by a copy of your application. This proof can be in the form of copies of your certified or registered mail receipts.

Also, we require proof of publication which would include the name of the

newspaper in which the advertisement was run, the dates which it was run, and a copy of the advertisement itself.

Please feel free to contact me if you have any questions.

Sincerely,

David Catanach Petroleum Engineer
