Texaco E & P Inc.
3300 N. Butler
Farmington, New Mexico 87401

Attention: Ted A. Tipton

Dear Mr. Tipton:

We are in receipt of a step rate test conducted on the Texaco E & P Inc. H.J. Loe "B" Federal Well No. 2, a disposal well located in Section 23, Township 29 North, Range 12 West, NMPM, San Juan County, New Mexico. This well, originally permitted for disposal on April 9, 1992 by Division Order No. SWD-472, is currently limited to a maximum surface injection pressure of 650 psi. We have reviewed the step rate test data and have determined that the surface injection pressure on this well should be reduced to a maximum of 500 psi.

If you should have any questions, please contact Mr. David Catanach at (505) 827-5800.

Sincerely,

A handwritten signature in dark ink, appearing to read "William J. LeMay".

William J. LeMay
Division Director
