Re: Form C-108 (Application to Inject)  
Todd "26" Federal Well No. 6  
Unit A, Section 26, T-23S, R-31E, NMPM,  
Eddy County, New Mexico

Dear Mr. Carleton:

The Division received your application to convert the Todd "26" Federal Well No. 6 to a disposal well on December 12, 2002. On December 3, 2002, the Division received an objection to the application (letter enclosed) from Pogo Producing Company. On December 16, 2002, I called you and left a phone message detailing the current status of the application and asking you whether you wanted the application set to hearing, which is the normal process after we receive an objection to an application. I have yet to receive your response, either by phone or mail.

Please be advised that current Division policy regarding administrative applications precludes me from holding this application any longer. I am therefore returning the application to you unprocessed. If you wish to pursue approval, a new application will be required.

If you have any questions, please contact me at (505) 476-3466.

Sincerely,

David Catanach  
Engineer
