Re: Off Lease Storage Application
Parkway "C" State Well No.1-F
Section 15-19S-29E
Lease Nos. L-1493-2 and L-4893-2
Eddy County, New Mexico

Dear Ms. Williams:

Reference is made to your letter of July 16, 1993, wherein you have requested our approval to off lease store the production from the Parkway "C" State Well No. 1-F (L-1493-2) to the Parkway "B" State Lease (L-4893-2) located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15-19S-29E.

We have derived the following information from your application:

1. The parties involved owning an interest in this lease have consented to the operation.
2. Production from each lease will be metered separately and accounting procedures are in place to account for production and sales from these leases separately.
3. There will be no commingling of production.

The Commissioner of Public Lands has this date granted approval to your proposed request. Please be advised that any deviation from your proposed request will be grounds to rescind our approval. Our approval is subject to like approval by the New Mexico Oil Conservation Division.

Also, please be advised that since you plan to run an above ground tubing line across various state leases, a right-of-way may be needed, and we have enclosed an application packet for this purpose. Please contact Debbie Padilla of our right-of-way section for further details regarding this matter.
