Gentlemen:

Gulf Oil Corporation requests your Administrative approval for an exception $\frac{2}{3}$ to New Mexico Oil Conservation Commission Rule 309-A to permit commingling of the Lea Bone Springs production from the Lea "AP" State lease, consisting of the E/2, Section 30, 19-S, 35-E, with the Lea Bone Springs production from our Lea "IH" State lease, comprising the W/2, Section 30, 19-S, 35-E, in storage facilities now under construction in the NE/4 SW/4, of said section. In support of this application applicant states the following:

(1) The Lea "IH" State lease has one well producing from the Lea Bone Springs Pool and additional drilling is anticipated.

(2) The Lea "AP" State lease has one well being drilled to the Lea Bone Springs Pool and additional drilling on this lease is also anticipated.

(3) Both leases are State owned with no diversity of royalty or working interest and the Commissioner of Public Lands has been requested to furnish a letter approving this application.

(4) The storage facilities being constructed on the Lea "IH" State lease are adequate to handle the production from both leases and adequate test facilities are available to take all required tests.

(5) Approval of this application will result in substantial savings in material and reduce the cost of operations and maintenance.

Your early consideration in this matter will be appreciated.

Yours C. D. BORLAND

> Re: Gulf Oil Corporation Lea I. H. State Lease and A. P. State Lease - Both in Sec. 30, 19-S, 35-E, Lea County, New Mexico, Lea Bone Springs Field

Dear Mr. Briggs:

This has reference to our telephone conversation of this date in regard to the captioned leases.

We are presently purchasing the production from your Lea IN State lease and we understand that your company plans to comingle the production from the well which is presently drilling on the Lea AP State lease into the same tankage. This is to advise that we would have no objection to your comingling this production.

Yours very truly,

THE PERMIAN CORPORATION
