Attention Mr. G. O. Webb

Gentlemen:

We are in receipt of your letter of January 15, 1970, addressed to Shell Pipe Line Corporation requesting Shell Pipe Line as purchaser to approve the commingling of the Grayburg-San Andres production from the captioned leases into an LACT located on the State "K" lease.

Shell Oil Company is the purchaser of the crude and Shell Pipe Line transports the crude for our account. Shell Oil Company, as purchaser of the crude, is agreeable to purchasing the crude commingled into an LACT located on the State "K" lease.

Please advise us when you actually commence the commingling so that we may adjust our records and notify our carrier to run the oil for our account.

Yours very truly,

Dear Sir:

CLB

The Amerada Division, Amerada Hess Corporation respectfully request exception to Rule 309-A to commingle Grayburg-San Andres production from the following properties:

<u>Property</u>	<u>Description</u>	<u>State Lease No.</u>
State "K"	E/2 NW/4 Sec. 29-19S-37E	A-4096
State "O"	NE/4 Sec. 30-19S-37E	B-1533 1/2
State "P"	W/2 SW/4 Sec. 29-19S-37E	B-1384
State "R"	E/2 SW/4 Sec. 29-19S-37E	B-1962

Plats of the leases showing the location of wells and a schematic diagram of the commingling facility and test facilities is attached. The New Mexico Land Office approval to commingle Grayburg-San Andres production from the afore mentioned properties, and the purchaser, Shell Pipe Line Corp., approval is also enclosed.

Yours very truly,

G. O. Webb

Amerada Hess Corporation requests permission to commingle Grayburg San Andres production from the following properties:

<u>Property</u>	<u>Description</u>	<u>State Lease No.</u>
State "K"	E/2 NW/4 Sec. 29-19S-37E	A-4096
State "O"	NE/4 Sec. 30-19S-37E	B-1533 1/2
State "P"	W/2 SW/4 Sec. 29-19S-37E	B-1384
State "R"	E/2 SW/4 Sec. 29-19S-37E	B-1962

We propose to install a LACT Unit to be located on the State "K" lease. Although the request covers four separate properties, our records reflect the ownership is uniform throughout. Therefore, commingling of production into common storage will not require separate measurement of production prior to commingling provided an exception to Rule 309-A is obtained and a showing is made to the New Mexico Oil Conservation Commission that adequate facilities are installed to permit determination of the producing capacity of each well at least once a month. We contemplate handling this with the Oil Conservation Commission as soon as approval is obtained from your office of the application for commingling herein made.

Attached, to support our request, are two copies of our letter dated October 24, 1969, showing production from the wells for September 1969 and also two plats showing the location of the wells affected by this request.

Should our request meet your approval, please so indicate by your approval and return one copy of this letter in the stamped, addressed envelope which is enclosed.

Amerada check in the amount of \$10.00 to cover the filing fee in connection with this application is also enclosed.

Yours very truly,
