Subject: Application to Commingle  
Oil Production - State "C"  
Lease, Lea County, New Mexico

Mr. A. L. Porter (3)  
Secretary-Director  
New Mexico Oil Conservation Commission  
Post Office Box 871  
Santa Fe, New Mexico

Dear Mr. Porter:

Pan American Petroleum Corporation hereby submits application for the commingling of oil production from the following well and pools:

State "CK" No. 1 located in Unit N, Section 19, T-21-S, R-37-E, NMPM, Lea County, New Mexico. This well is dually completed in the Drinkard (oil) and Paddock (oil) pools. Application for dual completion submitted through administrative channels January 12, 1962.

In support of our request for exception approval without notice and hearing to Rule 303 (a) to permit the commingling in common facilities of the commonly owned production from two or more common sources of supply, the following is submitted:

1. The oil production from each common source will be measured separately utilizing A. O. Smith T-6 temperature compensated meters. The BS&W content will be periodically determined by centrifugal testing procedures. At present, both the Paddock and Drinkard are producing water free.
2. The A. O. Smith T-6 meters will be proved monthly in the existing 500 bbl. stock tanks.
3. Detailed data of liquid hydrocarbons:

<u>Pools</u>	<u>Gravity</u> (°API)	<u>Value/Bbl.</u> <u>Based On Last</u> <u>12 Months</u>	<u>Estimated</u> <u>Annual</u> <u>Production</u>
A. Paddock (oil)	37.9	2.89	17,520
B. Drinkard (oil)	38.4	2.86	23,360
C. Commingled Production	38.2	2.89	40,880

The commercial value of the commingled production will be more than the sum of the production from each common source of supply by approximately \$526 per year.

4. Schematic diagram of proposed installation is attached. Tank battery facility to be located in SE/4 SW/4 Section 19, T-21-S, R-37-E, Lea County, New Mexico.
5. Plat showing the location of all wells on the State "CK" Lease and the pools from which each well is producing is attached.

Yours very truly,

Attention: Mr. V. E. Staley

Re: File No. VES-63-541.113 x 400  
Commingling of Oil production  
State "CK" Lease, Lea County,  
New Mexico.

Dear Mr. Staley:

We have no objection to your proposed commingling of the production, from your State "CK" # 1, located in Unit "N", of Section 19, T. 21 S., R. 37 E.

We would offer no particular objection to any commingling proposal, provided, that the production does not belong to separate institutions and, insofar as the commingled product does not lessen the price or the State's royalty. However, we do appreciate the fact that you have requested permission.

We feel that it is very important that we are notified so that we may check to determine the owners of the acreage.

Yours very truly,

E. S. JOHNNY WALKER  
Commissioner of Public Lands
