Re: Revision Of Commission Order
No. PC-146, Commingle of Production
TEXACO Inc.
New Mexico 'BZ' State (NCT-10) Lease
Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Texaco Inc. respectfully requests permission to commingle liquid hydrocarbon production without measuring the separate production from the Justis Blinbry and Justis Tubb-Drinkard Pools on the New Mexico 'BZ' State (NCT-10) Lease which consists of the SW/4 of Section 2, T-25-S, R-37-E, Lea County, New Mexico.

Commission Order PC-146 granted authority to commingle the production from the aforementioned pools after separate measurement of production from each pool. Since the initiation of this procedure, production into the battery on the New Mexico 'BZ' State (NCT-10) Lease has declined to a marginal status for all wells in the pools being commingled in this battery. In support of this, a tabulation of the average daily production over a 60-day period has been attached.

In accordance with NMOCC "Manual For the Installation and Operation of Commingling Facilities", Section 11 - "Commingling Between Pools and Zones", Item 1 - "Marginal Zones", commingled production may be permitted without separately metering each zone if production is then based on periodic well tests.

Yours very truly,

J. V. Gannon
J. V. Gannon
