P. O. BOX 2088

SANTA FE, NEW MEXICO 87501

June 7, 1968

C Sunray DX Oil Company
Post Office Box 1416
Roswell, New Mexico 83201

Attention: Mr. John Hastings

Administrative Order PC-353

O Gentlemen:

P Reference is made to your application dated June 4, 1968, for administrative approval of an exception to Rule 303(a) of the Commission Rules and Regulations to permit the commingling of Monument-San Andres and Monument-Blaine production on your A. Cooper Lease comprising the E/4 of Section 12, Township 20 South, Range 36 East, and the W/4 of Section 7, Township 20 South, Range 37 East, Lea County, New Mexico, allocating the production on the basis of periodic well tests. It is our understanding that the production from both pools on said lease is of marginal nature.

Y By the authority vested in me under the provisions of Rule 303(b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner, provided, however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," and provided further, that you shall notify the Commission at such time as any well in either of the aforesaid pools is capable of top allowable production.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director

ALP/DSH/ir

• *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green algae. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts.

[illegible]
$$\frac{d}{dt} \left(\frac{1}{2} m \dot{x}^2 \right) = \frac{1}{2} m \ddot{x}^2 = \frac{1}{2} m \left(\frac{d}{dt} \left(\frac{1}{2} m \dot{x}^2 \right) \right) = \frac{1}{2} m \left(\frac{d}{dt} \left(\frac{1}{2} m \dot{x}^2 \right) \right)$$

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the results of its investigation of the activities of the American Friends Service Committee in the Philippines. It is therefore requested that the Commission be kept advised of any developments in this regard.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the South (CLPS) in the United States. The Commission is therefore unable to determine whether the CLPS is a genuine organization or a front organization for the United States government.

420 1-13-1947

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

1. *Phragmites* (common)

1. $\text{CH}_3\text{COOH} + \text{H}_2\text{O} \rightleftharpoons \text{CH}_3\text{COO}^- + \text{H}_3\text{O}^+$ (acid dissociation)
 2. $\text{CH}_3\text{COO}^- + \text{H}_2\text{O} \rightleftharpoons \text{CH}_3\text{COOH} + \text{OH}^-$ (base hydrolysis)
