Re: Surface Commingling Application
McDonald State A/C 2 Lease Well Nos. 11, 26 and 33
Section 13-22S-36E
State Lease No. A-2614
Lea County, New Mexico

Dear Mr. Guidry:

This office is in receipt of your letters of April 27, 1992 and June 17, 1992, requesting approval to surface commingle the production from the McDonald A/C Well Nos. 11, 26 and 33.

It is our understanding that the above three wells are presently producing from the Eumont Pool which is to be surface commingled with the Blinbry and Drinkard pools at a common stock tank battery to be located in Unit I of Sec. 13-22S-36E.

Since it appears that there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request for surface commingling of the above mentioned wells is hereby approved. Any deviation from the substance of your request will be sufficient grounds for rescinding our approval. Our approval is subject to like approval by the New Mexico Oil Conservation Division.

If you have any questions, or if we may be of further help, please contact Pete Martinez at (505) 827-5791. Your Thirty (\$30.00) Dollar filing fee has been received.

Very truly yours,

JIM BACA
COMMISSIONER OF PUBLIC LANDS
