Leases, Lea County, N. M.

Mr. A. L. Porter  
Secretary-Director  
New Mexico Oil Conservation Commission  
Post Office Box 871  
Santa Fe, New Mexico

Dear Sir:

Reference is made to our letter of June 7, 1963, concerning the application to commingle oil production on State "A" Tract 8, Leech R/A "A" and Leech R/A "B" Leases in Lea County, New Mexico.

Please find attached the letter of approval of the Commissioner of Public Lands, State of New Mexico, concerning the subject application.

Yours very truly,

  
V. E. Staley  
Area Superintendent

Gentlemen:

This office can find no reason to object to the above, provided that state wells are separately metered. The acreage that you request permission on is not Common ownership, and that is the reason for separate metering and sampling. We therefore approve your request, subject to approval by the Oil Conservation Commission.

Thank you for your plats and schematic diagrams.

Very truly yours,

E. S. JOHNNY WALKER  
COMMISSIONER OF PUBLIC LANDS

Subject: Application to Commingle Oil  
Production - State "A" Tract 8,  
Leech R/A "A", and Leech R/A "B",  
Log County, New Mexico

Mr. A. L. Porter, Jr. (3)  
Secretary-Director  
New Mexico Oil Conservation Commission  
Post Office Box 871  
Santa Fe, New Mexico

Dear Sir:

Pan American Petroleum Corporation hereby respectfully submits application for the commingling of Hobbs Pool production from the State "A" Tract 8, Leech R/A "A" and Leech R/A "B" Leases with commingled Hobbs and Bowers Pool production at the Hobbs Consolidated Battery No. 1.

In support of our request for exception without notice and hearing to Rules 303-A and 309-B, the following is submitted:

1. Oil production from various leases with wells completed in the Hobbs and Bowers Pools is presently commingled at the Hobbs Consolidated Battery No. 1, located in NW/4 of NW/4 of Section 10, T-19-S, R-38-E. Permission for off-lease storage of commingled production from several leases was obtained July 26, 1961, Order R-2041. Production from each lease and each pool is metered and sampled separately prior to commingling utilizing A. O. Smith T-6 temperature compensated meters equipped with samplers. Production from the Leech R/A "A" and the Leech R/A "B" is presently commingled at the Leech Commingled Battery located NE/4 of SE/4 of NW/4, Section 15, T-19-S, R-38-E. Administrative approval for the commingling of production from separate leases was granted December 26, 1961, Administrative Order CTB-74. Production from the State "A" Tract 8, Leech R/A "A" and Leech R/A "B" will be metered and sampled separately prior to commingling at the Hobbs Consolidated Battery I, utilizing A. O. Smith temperature compensated meters equipped with samplers.
2. The A. O. Smith T-6 meters will be proved monthly with a master meter.

Page 2  
Mr. A. L. Penick, Jr.  
June 7, 1963

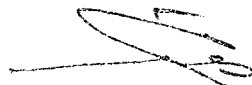

3. Detailed data of liquid hydrocarbons:

<u>Source</u>	<u>Gravity °API</u>	<u>Value-\$/BBL</u>	<u>Estimated Annual Production (Bbls)</u>
A. Hobbs Consolidated Battery 1-Commingle Hobbs & Bowers Pools	35.5	2.85	303,600
B. State "A" Tract 8 Lease - Hobbs Pool	35.1	2.85	12,800
C. Leech Commingle Bat- tery-Commingle Hobbs Pool	35.7	2.85	6,400
D. Total Commingle Production	35.5	2.85	322,800

The commercial value of the commingled production will be the same as the sum of the production from each source of supply.

4. All parties owning an interest in the Leech R/A "A" and Leech R/A "B" and the purchaser of the commingled production have been notified by certified mail of our intention to commingle production from these leases.
5. Plats of the leases, showing the location of wells and the formation in which they are completed are attached.
6. A schematic diagram of the proposed installation is attached.

Yours very truly,

V. E. Staley  
Area Superintendent
