Mr. Dan Nutter  
New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

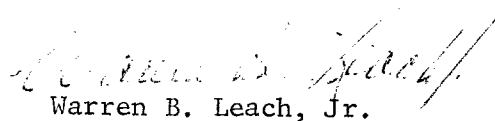

Dear Dan:

In accordance with our telephone conversation recently regarding certain proposed facilities in connection with the Indian Basin Area Gas Processing Plant which is contemplated by Marathon and others, I enclose herewith the following:

- (1) A plat showing the presently proposed plant area as well as the proposed gas and liquid gathering system.
- (2) A sketch showing an example of the facilities which Marathon presently proposes in connection with the operation of the plant and gathering systems.

I hope the enclosed may be of some assistance to you in understanding Marathon's proposal. In the event we are able to make appointments next week with all parties concerned, I expect that we will be seeing you some time next week in Santa Fe.

Yours truly,

  
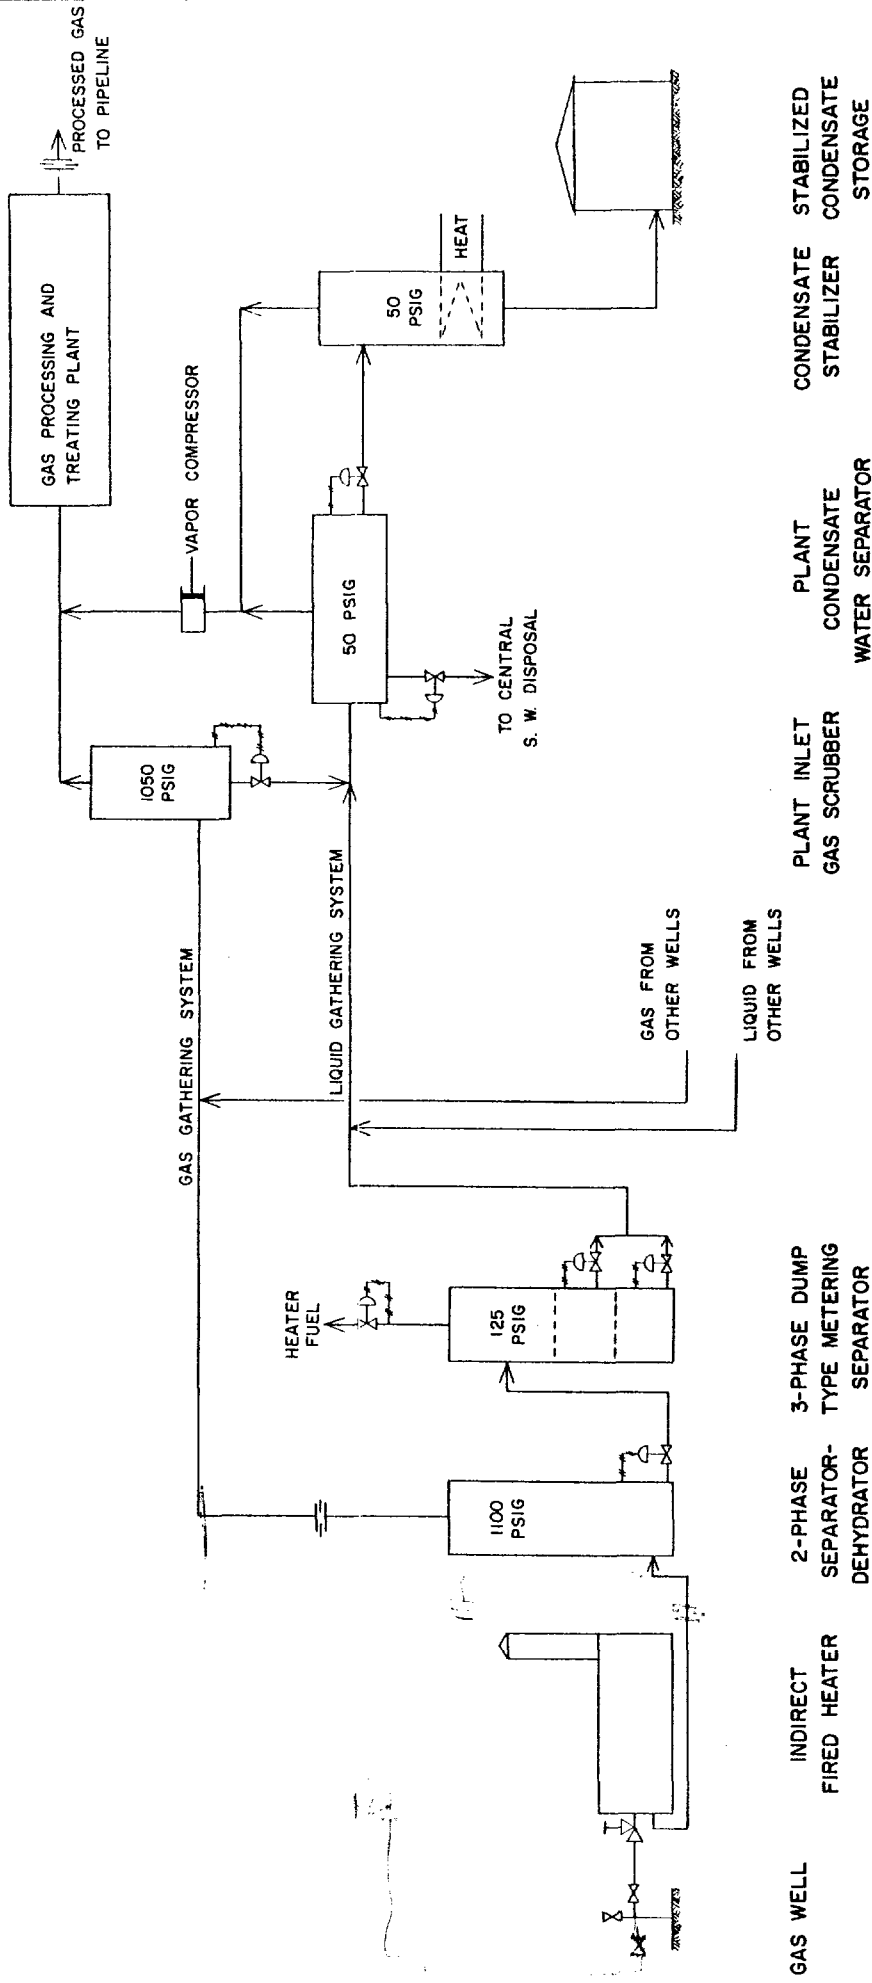

Warren B. Leach, Jr.
