Application for Nonstandard Location Cass Pool

SEMU #160
Section 14, T-20-S, R-37-E, K
1650' FSL & 2250' FWL
Lea County, NM

Dear Mr. Stogner,

The SEMU #160 well is located within a mile of the Cass pool. The standard location for a Cass Pool well shall be within 150 feet of the center of a governmental quarter-quarter section or lot. This well is staked outside of that radius therefore a nonstandard location order is required.

The location is proposed as a northern extension of the Cass Pool. If this well is successful it will extend the Cass Pool to the north into Section 14 of T20S, R37E. Three exhibits are enclosed that explain the reasoning for proposing the non-standard Strawn location for this well. Exhibit 1 is an east-west seismic line from the 3D survey through the proposed location. On Exhibit 1, the yellow line is the Top Strawn seismic pick at about 1035 milliseconds and the green line is the Top Devonian seismic pick at about 1040 milliseconds. The Strawn to Devonian section thins from west to east and at the proposed location for the SEMU 160, the Strawn is interpreted to be structurally high. To the east of the proposed location, the seismic event at the Top Strawn is thinner. The interpretation indicates this seismic event is the productive zone in the Cass Pool. Exhibit 2 is a depth map on the Top Strawn pick. The darker red color on the map is high and the green color is low. The map shows a structural nose at Top Strawn in the southwest quarter of section 14. This structural nose is the target of the SEMU 160 well.

The page size plot, Exhibit 3, (both paper and film overlay) is of a standard 640 acre section. On the plot, a Cass Pool standard location is shown within the red circles of a 150 foot radius. Placing the overlay on the Top Strawn Depth map will illustrate that the northern portion of the structural nose is not located within a standard location. The proposed location of the SEMU #160 was chosen: 1) to get high structurally, 2) to be in a coherent seismic event and 3) to have the possibility of a standard completion to shallower zones.

The SEMU # 160 lies within the Conoco operated Southeast Monument Unit. Conoco is the only offset operator, there is no notification required. After drilling the well and documenting commercial production, Conoco will establish a new Strawn participating

area. Please find enclosed with this application an updated map of Conoco's SEMU Area showing the new 2001 staked well locations.

Conoco respectfully requests an administrative nonstandard location order for the SEMU # 160. If you need any additional data please call me at (915) 686-5798.

Sincerely,

A handwritten signature in black ink, appearing to read "Kay Maddox". The signature is fluid and cursive, with a large initial "K" and "M".

(MEDICINE ROCK-DEVONIAN POOL - Cont'd.)

(2) That the applicant, Sinclair Oil & Gas Company, seeks the promulgation of special rules and regulations for the Medicine Rock-Devonian Pool, Lea County, New Mexico, including a provision for 80-acre oil proration units.

(3) That the evidence presented at the hearing of this case establishes that the Medicine Rock-Devonian Pool can be efficiently and economically drained and developed on 80-acre proration units, and that such development will prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

That Special Rules and Regulations for the Medicine Rock-Devonian Pool are hereby promulgated as follows:

**SPECIAL RULES AND REGULATIONS
FOR THE MEDICINE ROCK-DEVONIAN POOL**

RULE 1. Each well completed or recompleted in the Medicine Rock-Devonian Pool or in the Devonian formation within one mile of the Medicine Rock-Devonian Pool, and not nearer to or within the limits of another designated Devonian oil pool, shall be spaced, drilled, operated, and prorated in accordance with the Special Rules and Regulations hereinafter set forth.

RULE 2. Each well completed or recompleted in the Medicine Rock-Devonian Pool shall be located on a unit containing approximately 80 acres, which consists of any two contiguous quarter-quarter sections of a single governmental quarter section. For purposes of these Rules, a unit consisting of between 79 and 81 surface contiguous acres shall be considered a standard unit.

RULE 3. Each well projected to or completed in the Medicine Rock-Devonian Pool shall be located within 150 feet of the center of either quarter-quarter section in the 80-acre unit; provided, however, that nothing contained herein shall be construed as prohibiting the drilling of a well on each of the quarter-quarter sections in the 80-acre unit.

RULE 4. For good cause shown, the Secretary-Director may grant an exception to Rule 2 without notice and hearing where an application has been filed in due form, and where the unorthodox size or shape of the tract is due to a variation in the legal subdivision of the United States Public Lands Survey, or where the following facts exist and the following provisions are complied with:

- (1) The non-standard unit consists of a single quarter-quarter section or lot.
- (2) The non-standard unit consists of not more than 81 acres.
- (3) The entire non-standard unit may reasonably be presumed to be productive of oil from said pool.
- (4) The applicant presents written consent in the form of waivers from all offset operators.
- (5) In lieu of Paragraph 4 of this Rule, the applicant may furnish proof of the fact that all of the offset operators were notified of his intent to form such non-standard unit. The Secretary-Director may approve the application if, after a period of 30 days, no such operator has entered an objection to the formation of the non-standard unit.

RULE 5. An 80-acre proration unit (79 through 81 acres) in the Medicine Rock-Devonian Pool shall be assigned an 80-acre proportional factor of 7.75 for allowable purposes, and in the event there is more than one well on an 80-acre proration unit,

the operator may produce the allowable assigned to the unit from said wells in any proportion.

IT IS FURTHER ORDERED:

That the allowable provisions of this order shall become effective October 1, 1962. Further, that all operators who propose to dedicate 80 acres to a well in the Medicine Rock-Devonian Pool must file an amended Commission Form C-128 with the Hobbs District Office of the Commission by September 27, 1962.

IT IS FURTHER ORDERED:

That any well drilled or drilling in accordance with State-wide Rule 104 on the date of entry of this order which is located in exception to the above-described well location requirements is hereby granted an exception to said requirements.

IT IS FURTHER ORDERED:

That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

**CASS POOL
Lea County, New Mexico**

Order No. R-2825, Adopting Operating Rules for the Cass Pool, Lea County, New Mexico, December 7, 1964, as Amended by Order No. R-2825-A, December 7, 1964, and Order No. R-2825-B, December 7, 1964.

Application of Continental Oil Company for
Special Pool Rules, Lea County, New Mexico.

CASE NO. 3156
Order No. R-2825

ORDER OF THE COMMISSION

BY THE COMMISSION: This cause came on for hearing at 9 o'clock a.m. on November 24, 1964, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

NOW, on this 7th day of December, 1964, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Continental Oil Company, seeks the promulgation of special rules and regulations for the Cass Pool in Township 20 South, Range 37 East, NMPM, Lea County, New Mexico, including a provision for 80-acre spacing and authority to transfer allowables.

(3) That one well in the Cass Pool can efficiently and economically drain and develop 80 acres.

(4) That in order to prevent the economic loss caused by the drilling of unnecessary wells, to avoid the augmentation of risk arising from the drilling of an excessive number of wells, to prevent reduced recovery which might result from the drilling of too few wells, and to otherwise prevent waste and

(CASS POOL - Cont'd.)

protect correlative rights, special rules and regulations providing for 80-acre spacing units should be promulgated for the Cass Pool.

(5) That the special rules and regulations should provide for limited well locations in order to assure orderly development of the pool and protect correlative rights.

(6) That the applicant has not established that authority to transfer allowables within the Cass Pool will prevent waste or protect correlative rights.

(7) That the applicant's request for authority to transfer allowables within the Cass Pool should be denied.

IT IS THEREFORE ORDERED:

That Special Rules and Regulations for the Cass Pool are hereby promulgated as follows:

SPECIAL RULES AND REGULATIONS
FOR THE
CASS POOL

RULE 1. Each well completed or recompleted in the Cass Pool or in the Pennsylvanian formation within one mile thereof, and not nearer to or within the limits of another designated Pennsylvanian oil pool, shall be spaced, drilled, operated, and produced in accordance with the Special Rules and Regulations hereinafter set forth.

RULE 2. Each well shall be located on a standard unit containing 80 acres, more or less, consisting of the N/2, S/2, E/2, or W/2 of a governmental quarter section; provided, however, that nothing contained herein shall be construed as prohibiting the drilling of a well on each of the quarter-quarter sections in the unit.

RULE 3. The Secretary-Director of the Commission may grant an exception to the requirements of Rule 2 without notice and hearing when an application has been filed for a non-standard unit comprising a governmental quarter-quarter section or lot. All operators offsetting the proposed non-standard unit shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all offset operators or if no offset operator has entered an objection to the formation of the non-standard unit within 30 days after the Secretary-Director has received the application.

RULE 4. (As Amended by Order No. R-2825-B, December 7, 1964.) Each well shall be located within 150 feet of the center of a governmental quarter-quarter section or lot.

RULE 5. The Secretary-Director may grant an exception to the requirements of Rule 4 without notice and hearing when an application has been filed for an unorthodox location necessitated by topographical conditions or the recompletion of a well previously drilled to another horizon. All operators offsetting the proposed unorthodox location shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all offset operators or if no offset operator has entered an objection to the unorthodox location within 20 days after the Secretary-Director has received the application.

RULE 6. (As Amended by Order No. R-2825-A, December 7, 1964.) A standard proration unit (79 through 81 acres) shall be assigned an 80-acre proportional factor of 3.33 for allowable purposes, and in the event there is more than one well on an 80-acre proration unit, the operator may produce the allowable assigned to the unit from the wells on the unit in any proportion.

The allowable assigned to a non-standard proration unit shall bear the same ratio to a standard allowable as the acreage in such non-standard unit bears to 80 acres.

IT IS FURTHER ORDERED:

(1) That any well presently drilling to or completed in the Cass Pool or in the Pennsylvanian formation within one mile thereof that will not comply with the well location requirements of Rule 4 is hereby granted an exception to the requirements of said rule. The operator shall notify the Hobbs District Office of the Commission in writing of the name and location of the well on or before December 15, 1964.

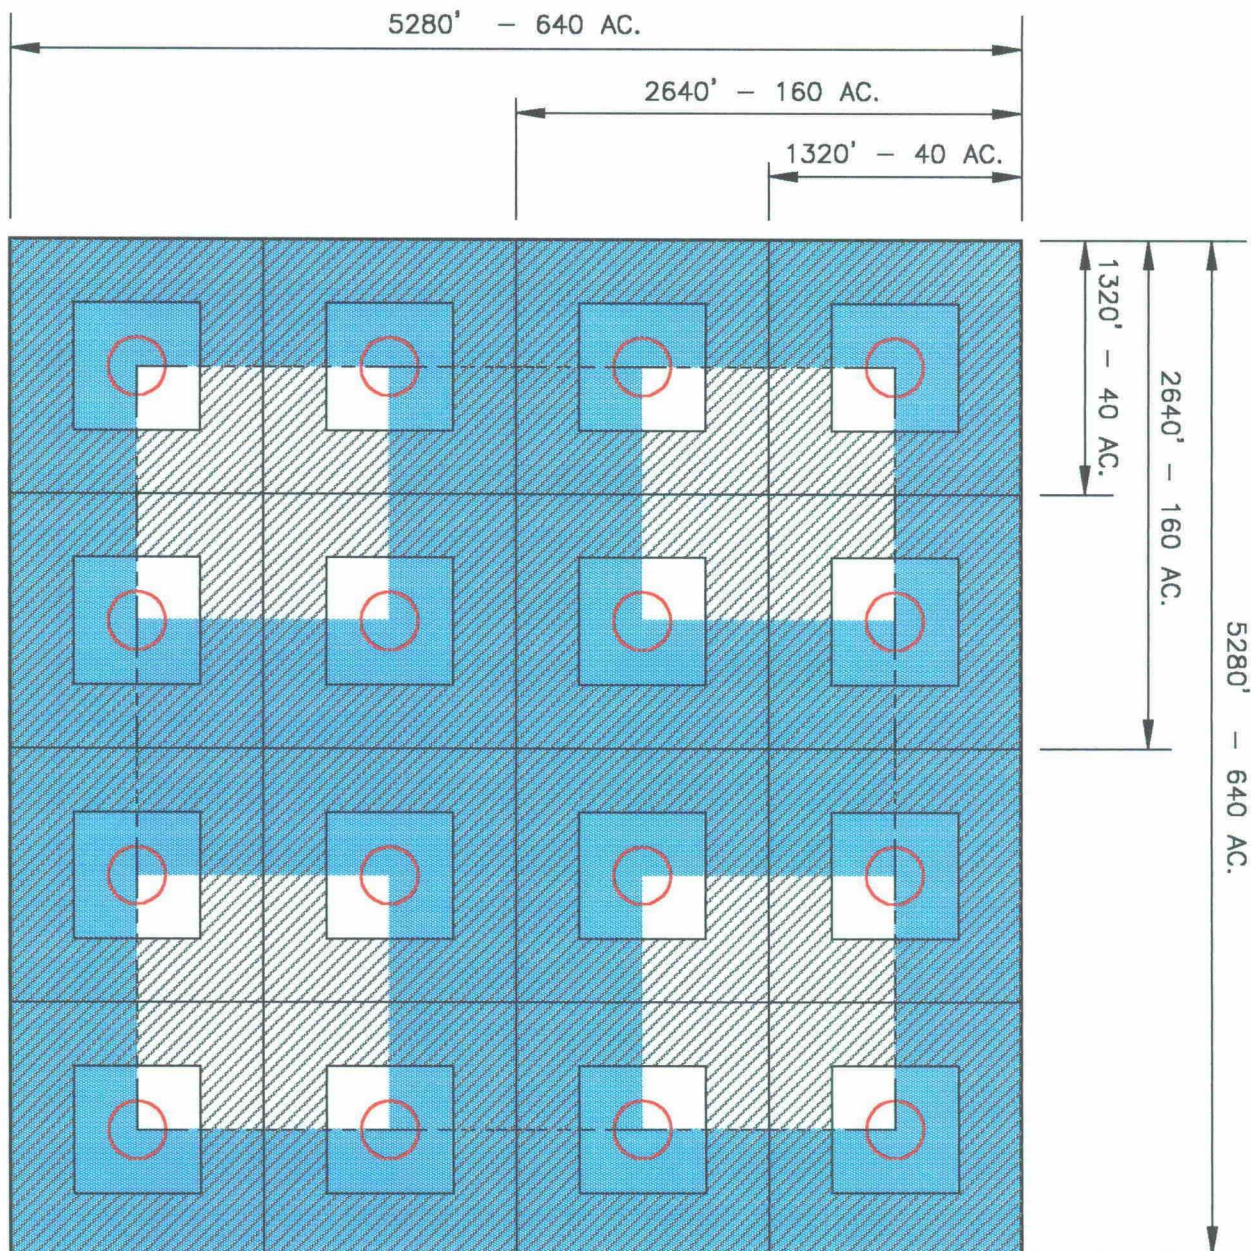

(2) That each well presently drilling to or completed in the Cass Pool or in the Pennsylvanian formation within one mile thereof shall receive a 40-acre allowable until a Form C-128 dedicating 80 acres to the well has been filed with the Commission.

(3) That the applicant's request for authority to transfer allowables within the Cass Pool is hereby denied.

(4) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE No. 3156
Order No. R-2825

APPLICATION OF CONTINENTAL OIL
COMPANY FOR SPECIAL POOL RULES,
LEA COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on November 24, 1964, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

NOW, on this 7th day of December, 1964, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Continental Oil Company, seeks the promulgation of special rules and regulations for the Cass Pool in Township 20 South, Range 37 East, NMPM, Lea County, New Mexico, including a provision for 80-acre spacing and authority to transfer allowables.

(3) That one well in the Cass Pool can efficiently and economically drain and develop 80 acres.

(4) That in order to prevent the economic loss caused by the drilling of unnecessary wells, to avoid the augmentation of risk arising from the drilling of an excessive number of wells, to prevent reduced recovery which might result from the drilling of too few wells, and to otherwise prevent waste and protect correlative rights, special rules and regulations providing for 80-acre spacing units should be promulgated for the Cass Pool.

-2-

CASE No. 3156

Order No. R-2825

(5) That the special rules and regulations should provide for limited well locations in order to assure orderly development of the pool and protect correlative rights.

(6) That the applicant has not established that authority to transfer allowables within the Cass Pool will prevent waste or protect correlative rights.

(7) That the applicant's request for authority to transfer allowables within the Cass Pool should be denied.

IT IS THEREFORE ORDERED:

That Special Rules and Regulations for the Cass Pool are hereby promulgated as follows:

SPECIAL RULES AND REGULATIONS
FOR THE
CASS POOL

RULE 1. Each well completed or recompleted in the Cass Pool or in the Pennsylvanian formation within one mile thereof, and not nearer to or within the limits of another designated Pennsylvanian oil pool, shall be spaced, drilled, operated, and produced in accordance with the Special Rules and Regulations hereinafter set forth.

RULE 2. Each well shall be located on a standard unit containing 80 acres, more or less, consisting of the N/2, S/2, E/2, or W/2 of a governmental quarter section; provided, however, that nothing contained herein shall be construed as prohibiting the drilling of a well on each of the quarter-quarter sections in the unit.

RULE 3. The Secretary-Director of the Commission may grant an exception to the requirements of Rule 2 without notice and hearing when an application has been filed for a non-standard unit comprising a governmental quarter-quarter section or lot. All operators offsetting the proposed non-standard unit shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all offset operators or if no offset operator has entered an objection to the formation of the non-standard unit within 30 days after the Secretary-Director has received the application.

RULE 4. Each well shall be located within 150 feet of the center of a governmental quarter-quarter section or lot line.

RULE 5. The Secretary-Director may grant an exception to the requirements of Rule 4 without notice and hearing when an application has been filed for an unorthodox location necessitated by topographical conditions or the recompletion of a well previously drilled to another horizon. All operators offsetting the proposed unorthodox location shall be notified of the application by registered or certified mail, and the application shall state that such notice has been furnished. The Secretary-Director may approve the application upon receipt of written waivers from all offset operators or if no offset operator has entered an objection to the unorthodox location within 20 days after the Secretary-Director has received the application.

RULE 6. A standard proration unit (79 through 81 acres) shall be assigned an 80-acre proportional factor of 2.33 for allowable purposes, and in the event there is more than one well on an 80-acre proration unit, the operator may produce the allowable assigned to the unit from the wells on the unit in any proportion.

The allowable assigned to a non-standard proration unit shall bear the same ratio to a standard allowable as the acreage in such non-standard unit bears to 80 acres.

IT IS FURTHER ORDERED:

(1) That any well presently drilling to or completed in the Cass Pool or in the Pennsylvanian formation within one mile thereof that will not comply with the well location requirements of Rule 4 is hereby granted an exception to the requirements of said rule. The operator shall notify the Hobbs District Office of the Commission in writing of the name and location of the well on or before December 15, 1964.

(2) That each well presently drilling to or completed in the Cass Pool or in the Pennsylvanian formation within one mile thereof shall receive a 40-acre allowable until a Form C-128 dedicating 80 acres to the well has been filed with the Commission.

(3) That the applicant's request for authority to transfer allowables within the Cass Pool is hereby denied.

-4-

CASE No. 3156

Order No. R-2825

(4) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.
