RE: **Ross Federal Well No. 4**
3100 feet FNL & 2600 feet FEL
Irregular Section 4, T21S, R24E
Administrative Application of
Fasken Oil and Ranch, Ltd. for approval
of an unorthodox gas well location,
Cemetery Morrow Gas Pool,
Eddy County, New Mexico

OIL CONSERVATION DIV.
01 AUG 30 PM 2:17

Dear Mr. Stogner:

Please find enclosed our administrative application for approval of
an unorthodox gas well location for Fasken Oil and Ranch, Ltd.'s Ross
Federal Well No. 4.

Very truly yours,

W. Thomas Kellahin

fxc: Fasken Oil and Ranch, Ltd.
Attn: Sally Kvasnicka

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**IN THE MATTER OF THE ADMINISTRATIVE
APPLICATION OF FASKEN OIL AND RANCH, LTD
FOR APPROVAL OF AN UNORTHODOX GAS WELL
LOCATION, EDDY COUNTY, NEW MEXICO**

ADMINISTRATIVE APPLICATION

Comes now Fasken Oil and Ranch, Ltd, by and through its attorneys, Kellahin and Kellahin, and in accordance with Division General Rule 104.F, applies to the New Mexico Oil Conservation Division for administrative approval of an "infill" unorthodox gas well location for its Ross Federal Well No. 4 ("Well No. 4") which is to be drilled at an unorthodox gas well location 3100 feet FNL and 2600 feet FEL of Irregular Section 4, T21S, R24E, Eddy County, New Mexico, and simultaneously dedicated with the Ross Federal Well No. 2 in Lot 13 to a standard 320-acre proration and spacing unit consisting of the "middle one-third of this section" (being Lots 9-16) for production from the Cemetary-Morrow Gas Pool, and in support states:

(1) Fasken Oil and Ranch, Ltd. ("Fasken") is the current operator of the Ross Federal Well No. 2 located in Lot 13 of Irregular Section 4, T21S, R24E, Eddy County, New Mexico and dedicated to a 320-acre gas spacing and proration unit ("GPU") consisting of Lots 9-16 of this section ("middle one-third") **See Exhibit 1**

(2) Section 4 is within the current boundary of the Cemetary-Morrow Gas Pool which is subject to Division Rule 104.

(3) Fasken desires to drill its Ross Federal Well No. 4 as an infill well on this GPU at an unorthodox gas well location 3100 feet from the North line and 2600 feet from the East line to be simultaneous dedicated to a standard 320-acre GPU currently dedicated to the Ross Federal Well No. 2.

(4) Fasken's proposed location encroaches on an internal boundary of the GPU.

01 AUG 30 PM 2:47
OIL CONSERVATION DIV.

**Administrative Application of
Fasken Oil and Ranch, Ltd.
Page 2**

(5) This proposed unorthodox well location is based upon a combination of geologic and topographical reasons:

(a) Dip meters run on the Ross Federal Wells No. 2 and 3 indicate counter-regional dip to the west with a Morrow Structure to the east of these wells. Fasken believes the best location for the Ross Federal Well No. 4 to be within the highest structural contour of this structure. **See Exhibit 2.**

(b) Any standard location in the east half of this GPU would not be acceptable to Fasken because it would locate the well farther down dip in a regional direction increasing the risk that the Morrow sands would contain too much water to produce gas in commercial quantities. In addition, the eastern location places the Yellow and Green sands in a thinner portion of those sands increasing the probability that they will not be economic. **See Exhibits 2-6.**

(c) Fasken's original unorthodox location and the now requested unorthodox location for the Ross Federal Well No. 4 are within the highest structural contour of this structure. **See Exhibit 2.**

(d) Fasken's original unorthodox location was 2700 feet from the north line and 2500 feet from the east line. This was east of the now requested unorthodox location and was to be in the bottom of a north/south draw. **(See Exhibit 7).** That was unacceptable to the BLM.

(e) There are five potential Morrow zones to be encountered starting with the Middle Morrow "yellow sand" **(See Exhibit 2)** and continuing down to any Lower Morrows to be encountered high enough to be above any local gas/water contact. **See Exhibits 3-6.** Both the original unorthodox location and the now requested unorthodox location are within this structural high and are anticipated to encounter these five Morrow zones.

(f) Fasken's now requested unorthodox location is acceptable to the BLM.

(g) The BLM also approved a surface location approximately 700 feet farther to the east which would be out of the draw and on the other side of a road. This location was not acceptable to Fasken because it would locate the well farther down dip in a regional direction increasing the risk that the Morrow sands would contain too much water to produce gas in commercial quantities. In addition, the eastern location places the Yellow and Green sands in a thinner portion of those sands increasing the probability that they will not be economic.

CORRELATIVE RIGHTS

(6) The ownership between the east half of the GPU where the Ross Federal Well No. 4 will be located is different from the west half of the GPU.

(7) By a voluntary agreement dated March 16, 1965, all owners, including working interest, royalty and overriding royalty owners, agreed to share production and costs for any well in Section 4 based upon the percentage of acres each owned in relation to the total number of acres in Section 4. **See Exhibit 8.**

(8) Since then, production from the Ross Federal Wells No. 1, 2 and 3 has been shared among the owners in Section 4 in accordance with the agreement described in paragraph (7) above.

(9) Fasken proposes to share production from the Ross Federal Well No. 4 in the same manner as production and costs from the Ross Federal Wells 1, 2, and 3 has been shared.

**Administrative Application of
Fasken Oil and Ranch, Ltd.
Page 4**

(10) While this well is only 32 feet from the centerline between the east half and west half of the GPU, all owners in the GPU share on an equitable basis.

NOTIFICATION

(11) Notification of this application has been sent to all interest owners in Section 4. **See Exhibit 9.**

WHEREFORE, Fasken Oil and Ranch, Ltd. requests that this matter be approved administratively by the Division.

Respectfully submitted

A handwritten signature in black ink, appearing to read 'W. Thomas Kellahin', with a stylized, flowing script.

Dear Mrs. Harper:

You transmitted two copies of oil division order No. 6801 in connection with Com. Agr. SRM-247 involving Federal leases NM-010567 (6.79066%), NM-021029 (43.25260%), NM-084402 (6.70415%) and NM-0207950 (43.25259%), Eddy County, New Mexico.

On the Monthly Report of Operations (Form 9-329) and in the "Other Information" block of the Rental & Royalty Remittance Advice (Form 9-614-A) identify this property by the Communitization Agreement No. 94-000247.

On the Monthly Report of Sales & Royalty (Form 9-361) and in the "Lease or Contract No." block of the Rental & Royalty Remittance Advice (Form 9-614-A) identify the oil sales by the individual leases involved:

29-010567	29-084402
29-021029	29-207950

Please note that a numerical source code is required on the Form 9-361 which represents the last three digits of the communitization agreement number. When reporting for this communitization agreement number, you should use Source Code 247.

One approved copy of the division order is returned herewith.

Sincerely yours,

COMMUNITIZATION AGREEMENT

Contract No.

THIS AGREEMENT entered into as of the **16th** day of **March**, 19**65**, by and between the parties subscribing, ratifying or consenting hereto, such parties being hereinafter referred to as "parties hereto,"

W I T N E S S E T H :

WHEREAS, the act of February 25, 1920, 41 Stat. 437, as amended, authorizes communitization or drilling agreements communitizing or pooling a Federal oil and gas lease or any portions thereof with other lands, whether or not owned by the United States, when separate tracts under such Federal lease cannot be independently developed and operated in conformity with an established well-spacing program for the field or area and such communitization or pooling is determined to be in the public interest; and

WHEREAS, the parties hereto own working, royalty, or other leasehold interests, or operating rights under the oil and gas leases and lands subject to this agreement which cannot be independently developed and operated in conformity with the well-spacing program established for the field or area in which said lands are located; and

WHEREAS, the parties hereto desire to communitize and pool their respective mineral interests in lands subject to this agreement for the purpose of developing and producing communitized substances in accordance with the terms and conditions of this agreement:

NOW, THEREFORE, in consideration of the premises and the mutual advantages to the parties hereto, it is mutually covenanted and agreed by and between the parties hereto as follows:

1. The lands covered by this agreement (hereinafter referred to as "communitized area") are described as follows:

Section 4, T-21-S, R-24-E, NMPM, Eddy County, New Mexico,

containing **924.8** acres, more or less, and this agreement shall extend to and include ~~only the Cisco Canyon and~~ **only the Cisco Canyon and** ~~the Morrow Formation~~ **the Morrow Formation** underlying said lands and the (dry gas and associated liquid hydrocarbons) ~~(oil and associated hydrocarbons)~~ hereinafter referred to as "communitized substances," producible from such formations. **This agreement shall apply separately to the Cisco Canyon Formation and to the Morrow Formation in the same manner as though a separate agreement for each formation had been entered into.**

2. Attached hereto, and made a part of this agreement for all purposes, is Exhibit A designating the operator of the communitized area and showing the acreage, percentage and ownership of oil and gas interests in all lands within the communitized area, and the authorization, if any, for communitizing or pooling any patented or fee lands within the communitized area.

3. All matters of operation shall be governed by the Operator under and pursuant to the terms and provisions of this agreement. A successor operator may be designated by the owners of the working interest in the communitized area and four (4) executed copies of a designation of successor operator shall be filed with the Regional Oil and Gas Supervisor.

4. Operator shall furnish the Secretary of the Interior, or his authorized representative, a log and history of any well drilled on the communitized area, monthly reports of operations, statements of communitized substances sales and royalties, and such other reports as are deemed necessary to compute monthly the royalty due the United States, as specified in the applicable oil and gas operating regulations.

5. Nondiscrimination: In connection with the performance of work under this agreement, the operator agrees to comply with all of the provisions of section 301 (1) to (7) inclusive, of Executive Order 10925, as amended (28 F.R. 6485), which are hereby incorporated by reference in this agreement.

6. The communitized area shall be developed and operated as an entirety with the understanding and agreement between the parties hereto that all communitized substances produced therefrom shall be allocated among the leaseholds comprising said area in the proportion that the acreage interest of each leasehold bears to the entire acreage interest committed to this agreement.

7. The royalties payable on communitized substances allocated to the individual leases comprising the communitized area and the rentals provided for in said leases shall be determined and paid on the basis prescribed in each of the individual leases.
X Payment of rentals under

^a ~~Where Federal sliding scale or step scale royalty rate leases are involved insert:~~
For any Federal lease bearing a sliding or step scale rate of royalty, such rate shall be determined separately as to production from each communitization agreement to which such lease may be committed, and separately as to any non-communitized lease production; provided, however, as to leases where the rate of royalty for gas is based on total lease production per day such rate shall be determined by the sum of all communitized production allocated to such a lease and any non-communitized lease production.

the terms of leases subject to this agreement shall not be affected by this agreement except as provided for under the terms and provisions of said leases or as may herein be otherwise provided. Except as herein modified and changed, the oil and gas leases subject to this agreement shall remain in full force and effect as originally made and issued.

8. There shall be no obligation on the lessees to offset any well or wells completed in the formation covered by this agreement on separate component tracts into which the communitized area is now or may hereafter be divided, nor shall any lessee be required to measure separately communitized substances by reason of the diverse ownership thereof, but the lessees shall not be released from their obligation to protect the communitized area from drainage of communitized substances by a well or wells drilled offsetting said area.

9. The commencement, completion, continued operation or production of a well or wells for communitized substances on the communitized area shall be construed and considered as the commencement, completion, continued operation or production on each and all of the lands within and comprising said communitized area, and operations or production pursuant to this agreement shall be deemed to be operations or production as to each lease committed hereto.

10. Production of communitized substances and disposal thereof shall be in conformity with allocation, allotments and quotas made or fixed by any duly authorized person or regulatory body under applicable Federal or State statutes. This agreement shall be subject to all applicable Federal and State laws or executive orders, rules and regulations, and no party hereto shall suffer a forfeiture or be liable in damages for failure to comply with any of the provisions of this agreement if such compliance is prevented by, or if such failure results from, compliance with any such laws, orders, rules or regulations.

11. This agreement shall be effective as of the date hereof upon execution by the necessary parties, notwithstanding the date of execution, and upon approval by the Secretary of the Interior, or his duly authorized representative, and shall remain in force and effect for a period of two (2) years ^{as to the Cisco-Canyon and Morrow formations individually} and so long thereafter as communitized substances are or can be produced from ~~the~~ ^{each} communitized area in paying quantities; provided, that prior to production in paying quantities from the communitized area and upon fulfillment of all requirements of the Secretary of the Interior, or his duly authorized representative, with respect to any dry hole or abandoned well, this agreement may be terminated at any time by mutual agreement of the parties hereto. This agreement shall not terminate upon cessation of production if, within sixty (60) days thereafter, reworking or drilling operations on the communitized area are commenced and are thereafter conducted with reasonable diligence during the period of nonproduction.

12. It is agreed by the parties hereto that the Secretary of the Interior, or his duly authorized representative, shall have the right of supervision over all operations within the communitized area to the same extent and degree as provided in the oil and gas leases under which the United States of America is lessor and in the applicable oil and gas operating regulations of the Department of the Interior.

13. The covenants herein shall be construed to be covenants running with the land with respect to the communitized interests of the parties hereto and their successors in interest until this agreement terminates; and any grant, transfer or conveyance of any such land or interest subject hereto, whether voluntary or not, shall be and hereby is conditioned upon the assumption of all obligations hereunder by the grantee, transferee, or other successor in interest, and as to Federal land shall be subject to approval by the Secretary of the Interior.

14. This agreement shall be binding upon the parties hereto and shall extend to and be binding upon their respective heirs, executors, administrators, successors and assigns.

15. This agreement may be executed in any number of counterparts, no one of which needs to be executed by all parties, or may be ratified or consented to by separate instrument, in writing, specifically referring hereto, and shall be binding upon all parties who have executed such a counterpart, ratification or consent hereto with the same force and effect as if all parties had signed the same document.

IN WITNESS WHEREOF, the parties hereto have executed this agreement as of the day and year first above written and have set opposite their respective names the date of execution.

RECEIVED

MAR 24 1965

APPROVAL-CERTIFICATION-DETERMINATION

U. S. GEOLOGICAL SURVEY
ROSWELL, NEW MEXICO

Pursuant to the authority vested in the Secretary of the Interior under Section 17 (j) of the Mineral Leasing Act of 1920, as amended (74 Stat. 784; 30 U.S.C. 226 (j)), and delegated to the Regional Oil and Gas Supervisors of the Geological Survey by Order approved June 14, 1962 (27 F.R. 6395), I do hereby:

- A. Approve the attached communitization agreement covering ~~then~~

Section 4, T-21-S, R-24-E, NMPM,

Eddy County, New Mexico

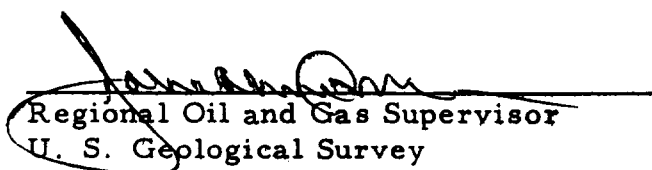

as to (dry gas and associated liquid hydrocarbons) ~~(oil and~~
~~associated hydrocarbons)~~ producible from the

Cisco Canyon and Morrow

formation.*.

- B. Determine that the Federal lease or leases as to the lands committed to the attached agreement cannot be independently developed and operated in conformity with the well-spacing program established for the field or area in which said lands are located, and that consummation and approval of the agreement will be in the public interest.
- C. Certify and determine that the drilling, producing, rental, minimum royalty and royalty requirements of the Federal lease or leases committed to said agreement are hereby established, altered, changed or revoked to conform with the terms and conditions of the agreement.

STATE OF NEW MEXICO
ENERGY AND MINERALS DEPARTMENT
OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
DIVISION FOR THE PURPOSE OF
CONSIDERING:

CASE NO. 6329
Order No. R-5822

APPLICATION OF DAVID FASKEN
FOR UNORTHODOX GAS WELL LOCATIONS
AND A NON-STANDARD PRORATION UNIT,
EDDY COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 9 a.m. on September 27, 1978, at Santa Fe, New Mexico, before Examiner Daniel S. Nutter.

NOW, on this 6th day of October, 1978, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, David Fasken, seeks approval for the unorthodox locations of the following three wells located in Township 21 South, Range 24 East, Cemetery-Morrow Gas Pool, Eddy County, New Mexico:

the Ross Federal Com. Well No. 2 to be drilled 3300 feet from the South line and 660 feet from the West line of Section 4, Lots 9 through 16 of said section to be dedicated to the well;

the Ross Federal Com. Well No. 3 to be drilled 6040 feet from the South line and 460 feet from the West line of Section 4 to be dedicated to a 284.6-acre non-standard proration unit comprising Lots 1 through 8 of said section; and the

Shell Federal Com. Well No. 2 to be drilled 3300 feet from the South line and 660 feet from the West line of Section 5, Lots 9 through 16 of said section to be dedicated to the well.

(3) That wells at said unorthodox locations will better enable applicant to produce the gas underlying each of the aforesaid proration units.

(4) That no offset operator objected to the proposed unorthodox locations.

(5) That approval of the subject application will afford the applicant the opportunity to produce his just and equitable share of the gas in the subject pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That unorthodox gas well locations are hereby approved for the following three wells located in Township 21 South, Range 24 East, Cemetery-Morrow Gas Pool, Eddy County, New Mexico:

the Ross Federal Com. Well No. 2 to be drilled 3300 feet from the South line and 660 feet from the West line of Section 4, Lots 9 through 16 of said section to be dedicated to the well;

the Ross Federal Com. Well No. 3 to be drilled 6040 feet from the South line and 460 feet from the West line of Section 4 to be dedicated to a 284.6-acre non-standard proration unit, hereby approved, comprising Lots 1 through 8 of said section; and

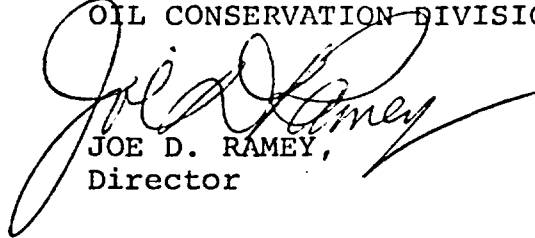

the Shell Federal Com. Well No. 2 to be drilled 3300 feet from the South line and 660 feet from the West line of Section 5, Lots 9 through 16 of said section to be dedicated to the well.

(2) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

-3-
Case No. 6329
Order No. R-5822

DONE at Santa Fe, New Mexico, on the day and year herein-
above designated.
