RE: PROPOSED NSP 221
PROPOSED NSL _____

Dear Mr. Macey:

I have examined the application dated 12/1
for the Gulf H. T. Orcutt C #8 6-21-36
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

I oppose the principal of ^{dual} withdrawals from within same vertical interval-
with but 28' between the two zones of production, I feel that gas may be
associated gas from oil zone-in view of several existing units of this type,
OK but I feel that special tests should be performed at regular intervals
to determine completeness of separation.

304.83 acres

Lots 1,2,3,4,5,6,7,8 of Sec. 2

Yours very truly,
