Re: Application for Non-Standard  
Gas Proration Unit - Amerada  
State "J" No. 3, Eumont Pool

Gentlemen:

In our application dated April 30, 1956, to the Conservation Commission asking for a non-standard gas proration unit assigned to the Amerada State "J" No. 3, it was stated that this unit would consist of 440 acres. Because of a delay in the proposed communitization agreements, Amerada requests at this time that the Commission approve a non-standard gas proration unit consisting of the following 120 acres:

W/2 of SE/4 and NE/4 of SW/4 of Section 2,  
Township 20 South, Range 36 East.

All other provisions of this proposed 120 acres gas proration unit remain as included in the original application.

When the communitization agreements have been processed, the Conservation Commission will be notified.

Respectfully submitted,
