Attention: Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen:

Application of Magnolia Petroleum Company  
for Administrative Approval of Non-Standard  
Units and Unorthodox Well Location for the  
#1 D. A. Williamson, Blinebry and Tubb Gas  
Pools, Lea County, New Mexico.

On behalf of Magnolia Petroleum Company we herein request administrative approval as provided for in Orders R-586 and R-610 for non-standard proration units for the D. A. Williamson Unit. Administrative approval is also sought for an unorthodox location for the #1 D. A. Williamson, which would be the producing well for that unit. The Unit's geometry and the well's location may be described as:

<u>Well Designation</u>	<u>Well Location</u>	<u>Unit Description</u>	<u>Acreage</u>
D. A. Williams #1	660' FNL & 765' FEL of Sec. 23- 21S-37E	NE/4 of the NE/4 of Sec. 23-21S-37E	40

The applicant attests to the following in support of the application:

- (1) All operators within 1980' radius of the well have been notified of the applicant's intent with a request to make any objections thereto known to the Commission within twenty days. A copy of this letter is attached and is meant to be a part of this application.

- (2) The #1 Williamson was drilled prior to issuance of Orders R-586 and R-610 and request for unorthodox location is sought under provisions of Rule 2 of those orders.
- (3) The Unit would consist of a regular governmental quarter-quarter section and as such has neither length nor width exceeding 2,640 feet.
- (4) The proposed unit appears reasonably productive of gas in its entirety.

Certified acreage plats are attached and are meant to be a portion of this application.

Yours very truly,

William S. Richardson
